These and similar literary changes embrace the greater part of the exercise of the editorial function up to the chapter which relates to the close of the Revolutionary War From that period to the end of the work the story was too meager to have linked to it the great subsequent events of Maryland's history It thus became necessary to rewrite the work from that point although in so doing everything of the author's has found incorporation although not always in situ A comparison with the original work will show the large extent of the amplification which was found to be necessary About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
