## **Mas Cerca O Mas Lejos Del Desarrollo:**

*Out of the Shadows* Patricia Fernández-Kelly, Jon Shefner, 2010-11 Since the beginning of scholarly writing about the informal economy in the mid 1970s the debate has evolved from addressing survival strategies of the poor to considering the implications for national development and the global economy Simultaneously research on informal politics has ranged from neighborhood clientelism to contentious social movements basing their claims on a variety of social identities in their quest for social justice Despite related empirical and theoretical concerns these research traditions have seldom engaged in dialogue with one another Out of the Shadows brings leading scholars of the informal economy and informal politics together to address how globalization has influenced local efforts to resolve political and economic needs and how these seemingly separate issues are indeed deeply related In addition to the editors contributors are Javier Auyero Miguel Angel Centeno Sylvia Chant Robert Gay Mercedes González de la Rocha José Itzigsohn Alejandro Portes and Juan Manuel Ramírez Sáiz

*Children in Crisis* Manata Hashemi, Martín Sánchez-Jankowski, 2013-06-07 This volume brings together ethnographers conducting research on children living in crisis situations in both developing and developed regions taking a cross cultural approach that spans different cities in the global North and South to provide insight and analyses into the lifeworlds of their young at risk inhabitants Looking at the lived experiences of poverty drastic inequality displacement ecological degradation and war in countries including Haiti Argentina and Palestine the book shows how children both respond to and are shaped by their circumstances Going beyond conventional images of children subjected to starvation hunger and disease to build an integrated analysis of what it means to be a child in crisis in the 21st century the book makes a significant contribution to the nascent field of study concerned with development and childhood With children now at the forefront of debates on human rights and poverty reduction there is no better time for scholars policymakers and the general public to understand the complex social economic and political dynamics that characterize their present predicaments and future life chances

**Working Knowledge in a Globalizing World** Liv Mjelde, Richard Daly, 2006 Covers issues of vocational education and training VET in light of social and economic changes such as apprenticeship information technology structural adjustment and shifting regional political and economic agendas Reports on global VET concerns in a dozen countries around the world

*Gender and the Digital Economy* Cecilia Ng, Swasti Mitter, 2005-11-05 In the global discourse on ICTs the concern so far has primarily been outsourcing and the loss of service sector jobs from the developed world This book focuses instead on the positive aspects of the digital economy as they relate to women in the developing world It illustrates with case studies from Argentina Morocco India Malaysia and the Philippines how economic empowerment through the medium of ICTs can change the position of women within their families and the workplace even in the face of uneven development processes This timely volume which is rooted in primary and original research illuminates the gender related facets of the emergent information society while raising key questions about the implications of the digital economy on women's work and lives *Knowing*

**Work** Markus Weil,Leena Koski,Liv Mjelde,2009 This book discusses new contradictions in the processes of vocational education It poses questions on how today s knowledge is to be taught and what should be learned within vocational education The meanings of work the characteristics of knowledge and knowing and the processes of vocational learning and educating are complex in contemporary societies The vocabularies discourses and policies are changing globally Coexisting and contradictory processes practices ideas and ideals shift waver and then take hold It is difficult to understand how they relate to their societies and to the lives of human beings The neo liberal policies governing the relations between capital and labour the state and the labour market severely affect both the changing and unchanging features of working and learning The book approaches vocational education from three perspectives moral and symbolic orders that are embedded in cultural and social relations working and knowing at school and at the work place and the dynamic combination of knowing and working as these are experienced within the ideas and practices of vocational education

### **Latin American Social Movements**

Hank Johnston,Paul Almeida,2006 The two current trends of democratization and deepening economic liberalization have made Latin American countries a ground for massive defensive mobilization campaigns and have created new sites of popular struggle In this edited volume on Latin American social movements original chapters are combined with peer reviewed articles from the well regarded journal Mobilization Each section represents a major theme in Latin American social movement research Original chapters discuss the Madres de Plaza de Mayo movement in Argentina and the Zapatista movement in Chiapas Mexico Also included in the book s coverage of the region s major movements are los piqueteros and antisweatshop labor organizing This is the first study to focus closely on the related issues of neoliberal globalization democratization and the workings of transnational advocacy networks in Latin America

*El viejo y el nuevo poder económico en la Argentina* Martín Schorr, 2021-03-20 Desde la conformación del Estado nacional a fines del siglo XIX hasta las noticias de ayer la élite empresarial ha sido un actor central con un poder de veto determinante en la economía argentina Por eso analizar la cúpula de las grandes empresas en distintos momentos históricos es una perspectiva reveladora que ayuda a comprender las dificultades recurrentes del país para reducir sus niveles de dependencia y desigualdad Este libro ofrece una mirada de largo plazo sobre el poder económico de la Argentina con el foco puesto en la trayectoria de las grandes firmas de la economía real En la rica tradición de los estudios de este campo pero con aportes originales en los indicadores que utilizan y la historia que reconstruyen los autores y las autoras parten de 1880 y llegan a las primeras décadas del siglo XXI repasando la composición el comportamiento y el grado de influencia de la élite empresarial en el país Muestran por ejemplo que más allá de los cambios en sus integrantes las grandes empresas han hecho jugar su influencia en su favor de maneras diversas corridas cambiarias subidas de precios reticencia inversora obtención de prebendas y colonización de ciertos espacios del Estado También dejan claro el lugar destacado del capital extranjero en el seno del poder económico local sobre todo en aquellos sectores que en cada momento histórico impulsaron las mayores ganancias Y reflexionan sobre la dificultad de calificar como burguesía nacional al

empresariado local que salvo excepciones ha sido siempre más propenso a fugar divisas y a subordinarse al capital extranjero que a privilegiar el desarrollo genuino. Este recorrido termina con un planteo tan urgente como problemático si no hay duda de que los sectores nacionales y extranjeros del gran capital tienen el poder para bloquear cualquier intento de cambio que no los beneficie directamente es posible condicionarlos solo por la vía de la acumulación de poder político. Es necesario al mismo tiempo transformar sus rasgos estructurales.
