The Masculine Self in Late Medieval England Derek G. Neal,2009-05-15 What did it mean to be a man in medieval England Most would answer this question by alluding to the power and status men enjoyed in a patriarchal society or they might refer to iconic images of chivalrous knights While these popular ideas do have their roots in the history of the aristocracy the experience of ordinary men was far more complicated Marshalling a wide array of colorful evidence including legal records letters medical sources and the literature of the period Derek G Neal here plumbs the social and cultural significance of masculinity during the generations born between the Black Death and the Protestant Reformation He discovers that social relations between men founded on the ideals of honesty and self restraint were at least as important as their domination and control of women in defining their identities By carefully exploring the social physical and psychological aspects of masculinity The Masculine Self in Late Medieval England offers a uniquely comprehensive account of the exterior and interior lives of medieval men

Dare,2021-02-04 The purpose of *Communicating in the Anthropocene* Intimate Relations is to tell a different story about the world Humans especially those raised in Western traditions have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes Humans can be either saviors or destroyers but our actions are explained and judged again and again as emanating from the individual And yet as the coronavirus pandemic has made clear humans are unavoidably interconnected not only with other humans but with nonhuman and more than human others with whom we share space and time Why do so many of us humans avoid deny or resist a view of the world where our lives are made possible maybe even made richer through connection In this volume we suggest a view of communication as intimacy We use this concept as a provocation for thinking about how we humans are in an always already state of being in relation with other humans nonhumans and the land **Crossing into Manhood: A Men's Studies Curriculum** Christopher P.
