Imagining Masculinities Katarzyna Kosmala, 2023-04-14 This book examines the intersections between debates in critical studies of men and masculinities and debates on visual representation, investigating representations of men and masculinities in contemporary culture and examples of visual art that deconstruct those representations. It attends to various spaces associated with heteronormativity, including the visible domains of working life, leisure, and public discourses, as well as less visible domains such as private spaces, lifestyle, desire, and sexual agency.

Ecological Masculinities Martin Hultman, Paul M. Pulé, 2018-09-26 Around the globe, unfettered industrialisation has marched forth in unison with massive social inequities. Making matters worse, anthropogenic pressures on Earth's living systems are causing alarming rates of thermal expansion, sea level rise, biodiversity losses in terrestrial and aquatic ecosystems, and a sixth mass extinction. As various disciplines have shown, rich white men in the Global North are the main, although not the only, perpetrators of this slow violence. This book demonstrates that industrial breadwinner masculinities have come at terrible costs to the living planet, and ecomodern masculinities have failed us as well. Men included. This book is dedicated to a third and relationally focused pathway that the authors call ecological masculinities. Here they explore ways that masculinities can advocate and embody broader, deeper, and wider care for the global through to local, global commons. Ecological Masculinities works with the wisdoms of four main streams of influence that have come before us. They are masculinities, politics, deep ecology, ecological feminism, and feminist care theory. The authors work with profeminist approaches to the conceptualisations and embodiments of modern Western masculinities. From there, they introduce masculinities that give ADAM n for Earth others and self, striving to create a more just and ecologically viable planet for all of life. This book is interdisciplinary. It is intended to reach but is not restricted to scholars exploring history, gender studies, material feminism, feminist care theory, ecological feminism, deep ecology, social ecology, environmental humanities, social sustainability, science, and technology studies, and philosophy.

Female Masculinity Jack Halberstam, 2019-01-05 In this quintessential work of queer theory Jack Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two centuries Demonstrating how female masculinity is not some bad imitation of virility but a lively and dramatic staging of hybrid and minority genders Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth century pre-lesbian practices to contemporary drag king performances Through detailed textual readings as well as empirical research Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them He rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity considers the enigma of the stone butch and the politics surrounding butch femme roles within lesbian communities and explores issues of transsexuality among transgender dykes lesbians who pass as men and female to male transsexuals who may find the label of
