Masculinity And Power:

Masculinity and Power Arthur Brittan,1989 *Masculinity and Power* Arthur Brittan,1991-01-08 Political domestic and economic life is dominated by networks of powerful men In *Masculinity and Power* Arthur Brittan analyses this state of affairs He looks at the way in which biologists psychologists and social scientists have attempted to explain masculinity and patriarchy in terms of simplistic models of human nature and social relationships *Masculinity and Power in Irish Nationalism, 1884-1938* Aidan Beatty,2016-09-23 This book is a comparative study of masculinity and white racial identity in Irish nationalism and Zionism It analyses how both national movements sought to refute widespread anti Irish or anti Jewish stereotypes and create more prideful and highly gendered images of their respective nations Drawing on English Irish and Hebrew language archival sources Aidan Beatty traces how male Irish nationalists sought to remake themselves as a proudly Gaelic speaking race rooted both in their national past as well as in the spaces and agricultural soil of Ireland On the one hand this was an attempt to refute contemporary British colonial notions that they were somehow a racially inferior or uncomfortably hybridised people But this is also presented in the light of the general history of European nationalism nationalist movements across Europe often crafted romanticised images of the nation s past and Irish nationalism was thus simultaneously European and postcolonial It is this that makes Irish nationalism similar to Zionism a movement that sought to create a more idealized image of the Jewish past that would disprove contemporary anti Semitic stereotypes

Cultural Competency for Public Administrators Kristen A. Norman-Major, Susan T. Gooden, 2014-12-17. With a focus on a broad spectrum of topics: race, ethnicity, gender, disability, and sexual orientation at the federal, tribal, state, and local levels, this book equips readers to better understand the complex real-world challenges public administrators confront in serving an increasingly diverse society. The book's main themes include: What is cultural competency and why is it important? Building culturally competent public agencies. Culturally competent public policy. Building culturally competent public servants. How do agencies assess their cultural competency and what is enough? PA scholars will appreciate the attention given to the role of cultural competency in program accreditation and to educational approaches to deliver essential instruction on this important topic. Practitioners will value the array of examples that reflect many of the common trade-offs public administrators face when trying to deliver comprehensive programs and services within a context of fiscal realities.

Food and Power Nir Avieli, 2018. Drawing on ethnography conducted in Israel since the late 1990s, *Food and Power* considers how power is produced, reproduced, negotiated, and subverted in the contemporary Israeli culinary sphere. Nir Avieli explores issues such as the definition of Israeli cuisine, the ownership of hummus, the privatization of communal Kibbutz dining rooms, and food at a military prison for Palestinian detainees to show how cooking and eating create ambivalence.

concerning questions of strength and weakness and how power and victimization are mixed into a sense of self justification that maintains internal cohesion among Israeli Jews *Control of Violence* Wilhelm Heitmeyer, Heinz-Gerhard Haupt, Stefan Malthaner, Andrea Kirschner, 2010-11-04 The Control of Violence in Modern Society starts from the hypothesis that in modern society we will face an increasing loss of control over certain phenomena of violence This leads to unpredictable escalations and violence can no longer be contained adequately by the relevant control regimes such as police state surveillance institutions national repression apparatuses and international law However before investigating this hypothesis from an internationally and historically comparative perspective the terms and tools for this undertaking have to be rendered more precisely Since both control and violence are all but clear cut terms but rather highly debatable and contested concepts that may take multiple connotations The main question is whether an increase in certain forms of violence can be explained by the failure or in turn overeffectiveness of certain control mechanisms It is asked for instance which contribution religion can make to limit violence and in turn which destructive potential religion might have in its fundamentalist form Moreover the concept of individual self control as well as social institutions and strategies of collective disengagement and de radicalization are investigated with regard to their potential for controlling violence The Control of Violence in Modern Society concludes with a re examination of the hypothesis of a loss of control by specifying in what cases and under which circumstances we can speak of a loss of control over violence **Power and Identity in Archaeological Theory and Practice** Eleanor Harrison-Buck, 2012-04-15 A new and broader approach to understanding power and identity in the Mesoamerican archaeological record **Power at Play** Michael A. Messner, 1995-04-30 Based on interviews with a diverse group of former high school college and professional athletes Power at Play examines the important role sports play in defining masculinity for American men Romanticism and Masculinity T. Fulford, 1999-03-22 This book examines the male Romantics versions of poetic authority in theory and practice in the context of their involvement in the political debates of Regency Britain and argues that their response to Burke s gendered discourse about power effected radical changes in the definitions of masculinity and femininity It portrays their influence on each other as a series of unstable struggles and alliances in which the formulation of an authoritative masculinity was a political as well as an aesthetic issue The author investigates the writers portrayals of women and their collaborations with women writers and throws new light on their nature poetry by relating it to their reactions to the sexual and political scandals of the Regency Knowledge and Power in the Global Economy David Gabbard, 2017-07-05 Advancing a three fold political agenda this volume illuminates how the meanings assigned to a whole vocabulary of words and phrases frequently used to discuss the role and reform of U S public schools reflect an essentially economic view of the world contends that education or educational reform conducted under an economized worldview will only intensify the effects of the colonial relations of political and economic domination that it breeds at home and abroad and offers a set of alternative concepts and meanings for reformulating the role of U S public

schools and for considering the implications of such a reformulation more generally for the underlying premises of all human relationships and activities Toward these ends the authors in Part I critically examine many of the most commonly used terms within the rhetoric of educational reform since the early 1980s and before Part II links today's economized worldview to curricular and instructional issues These essays are especially important for comprehending how the organization of school curriculum privileges those disciplines deemed most central to market expansion math and science and how the political centrality of the economic sphere influences the nature of the knowledge presented in specific content areas Given that language constrains as well as advances human thought the twin tasks of de economizing education and decolonizing society will require a vocabulary that transcends the familiar terminologies addressed in Parts I and II The entries in Part III cultivate the beginnings of such a vocabulary as the authors elucidate innovative concepts which they view as central to the creation of truly alternative educational visions and practices

The Routledge Companion to Masculinity in American Literature and Culture Lydia R. Cooper, 2021-12-26 Recently the U S has seen a rise in misogynistic and race based violence perpetrated by men expressing a sense of grievance from incels to alt right activists Grounding sociological historical political and economic analyses of masculinity through the lens of cultural narratives in many forms and expressions The Routledge Companion to Masculinity in American Literature and Culture suggests that how we examine the stories that shape us in turn shapes our understanding of our current reality and gives us language for imagining better futures Masculinity is more than a description of traits associated with particular performances of gender It is more than a study of gender and social power It is an examination of the ways in which gender affects our capacity to engage ethically with each other in complex human societies This volume offers essays from a range of established global experts in American masculinity as well as new and upcoming scholars in order to explore not just what masculinity once meant has come to mean and may mean in the future in the U S it also articulates what is at stake with our conceptions of masculinity

Gender, Truth and State Power Anette Ballinger, 2016-07-01 This book is concerned with critically analysing the importance of the status of knowledge in establishing truth about female defendants convicted of murder during the 20th Century While the abolition of the death penalty in the UK has insured that the impact of this knowledge is no longer one of life and death modern cases such as that of Sally Clark whose guilty verdict was eventually overturned nevertheless demonstrate the devastating impact that those with the power to define the truth still have on the lives of individuals who are unable to construct a dominant truth of their own during their trials Using the key themes of truth gender and power the book also focuses on agency and rationality in relation to female criminality masculinity and miscarriages of justice Challenging official discourse which historically has incorporated entrenched constructions of women who kill as mad bad or tragic victims this book argues for the creation of new subject positions and alternative discourses within which female violence can be understood
