Mashaallah On Reception:

Reception of Soft and Sharp Powers Ihsan Yilmaz, Kainat Shakil, 2025-01-07 This book examines the projection of soft and sharp powers through the Turkish civilizational populist TV series Resurrection Ertugrul and its reception in Pakistan. By analyzing the content of the series, elite responses, interviews with ordinary Pakistanis, and Pakistani cyberspace, the book argues that beyond soft power, the show exerts Turkey's sharp power transnationally through themes of authoritarianism, violence, warfare, desire for killing and dying, Islamist collective victimhood, conspiracy theories, and anti-Christian sentiments. The book contributes to the literatures on sharp power, populism, and authoritarianism.

Horary Astrology Re-Examined Barbara Dunn, 2011-12-16 Horary Astrology Re-examined is a detailed and highly informative book demonstrating clearly and unambiguously that traditional methods are applicable to all astrology. There is no division between different branches. Barbara Dunn examines the methods by which astrologers of the past evaluated planetary strengths in order to make a judgement on a Question Nativity Election or any other type of chart. These evaluations provide a platform for judgement today in just the same way as they did over a thousand years ago. For all charts, the process of evaluation is broadly the same: what Coley calls the short, comprehensive and approved rules of Art. The focus of this work is Questions and the aim practical rather than philosophical.

Horary Astrology Petros Eleftheriadis, 2019-03-20 Horary astrology is a fascinating and exacting technique, and here is the perfect book to hone your skills. Author Petros Eleftheriadis presents over fifty valid charts taken from his client files, which demonstrate in clear steps how to reach an answer. He stresses the importance of starting with the correct question; for instance, he doesn't accept "Should I?" questions, saying "Astrology charts cannot possibly show something that will NEVER materialize, something that will never become reality, so they cannot show how your life would be had you made another decision." So rather than asking whether you will win the lottery if you buy a ticket, the correct action would be to buy the ticket, then ask if you will win. Ideal for students and professionals with some knowledge of horary astrology.

A History of Western Astrology Volume II Nicholas Campion, 2009-04-16 Astrology is a major feature of contemporary popular culture. Recent research indicates that 99% of adults in the modern west know their birth sign. In the modern west, astrology thrives as part of our culture despite being a pre-Christian, pre-scientific world view. Medieval and Renaissance Europe marked the high water mark for astrology. It was a subject of high theological speculation, was used to advise kings and popes, and to arrange any activity from the beginning of battles to the most auspicious time to have one's hair cut. Nicholas Campion examines the foundation of modern astrology in the medieval and Renaissance worlds. Spanning the period between the collapse of classical astrology in the fifth century and the rise of popular astrology on the web in the twentieth century, Campion challenges the historical convention that astrology flourished only between the twelfth and seventeenth centuries. Concluding with a discussion of astrology's popularity and appeal in the twenty-first century, Campion asks whether it should be seen as an integral part of modernity or as an element of the post-modern world.

Zahiruddin Khurshid, 2013-06-28 Web Text Introduction There is a general perception about the authors of autobiographies that they tell truth about other people while they need to tell truth about themselves I have tried to be objective throughout my book and highlighted my failures and mistakes too The present book is an account of my life that began on February 8 1947 when I was born in the Sarpanch Mohammad Khurshid Haq family in a small town on the banks of the river Kanhan known as Kamptee in India Sarpanch is a title used for the head of Panchayat The title remained in our family for three generations After my father died Anis bhaijan elder brother would have become the next sarpanch but he had already migrated to Pakistan in 1947 and later we all left I take great pride to be part of the Khurshid family which has its roots in Kamptee but now known internationally through the contributions of several family members not only in library and information science but also in physics business administration computer engineering medicine and biology During my sixty six years of life I migrated or relocated to four different countries and benefitted from their rich cultures When I look back into the history I find the following four distinct periods each representing the years that I spent in one country before migration or relocation to another 1947-1964 India 1964-1974 Pakistan 1974-2011 Saudi Arabia 2011-present United States The culture social system history tradition arts language literature education system and others will definitely influence anybody who has spent ten years or more in a country Some may adopt a particular part of the local culture quickly such as clothing language food and so on It is very common to see nurses from the Philippines learn Arabic in a few months and start talking to Saudi patients or visitors in Arabic with fluency because of the demand of their jobs I feel sorry that I cannot speak Arabic as good as those Asian workers speak However their languages and scripts are completely different from Arabic Now one can understand that having lived in three countries for ten years or more I have enriched my knowledge and skills and enhanced other capabilities as information professional I believe in the principle of give and take I have benefitted from world knowledge all my life now it is my turn to give something to the seekers of knowledge in return Life is not about just take take and take it is about both give and take I find writing about myself as the most difficult job During my professional career I have worked with so many bosses including deans directors and heads of departments Before they left KFUPM or went back to their departments on the completion of their term I requested recommendation letters from each one of them Except my American bosses all Saudi bosses asked me to first prepare a draft and show it to them so that they could make any changes if needed I had to be a little modest in preparing those drafts I always felt that if the bosses had written those letters themselves they would have used more superlatives for me Therefore I am already feeling a little uncomfortable writing my own biography I will try to make this volume an objective and fair account of my personal and professional life

Debating the Stars in the Italian Renaissance Ovanes Akopyan, 2020-10-12 In *Debating the Stars* Ovanes Akopyan sheds new light on the astrological controversies that arose in the late fifteenth and early sixteenth centuries after the publication of Giovanni Pico della Mirandola's *Disputationes adversus astrologiam divinatricem* 1496 This treatise has often been held responsible for a contemporary reassessment of the status of astrology a discipline that attracted widespread fascination in the Renaissance Akopyan's reconstruction of the development of Pico's views demonstrates that the *Disputationes* was a continuation of rather than a drastic rupture with the rest of his legacy By investigating the philosophical and humanist foundations for Pico's attack on astrological predictions Akopyan challenges the popular assumption that the treatise was written under Girolamo Savonarola's spell He shows instead how it was appropriated ideologically by pro Savonarolan circles after Pico's death This book also offers a comprehensive study of the immediate reception of the *Disputationes* across Italy and Europe and reveals that the debates initiated by Pico's intervention pervaded all of the European intellectual oikumene
