The Mask of Apollo Mary Renault, 2015-08-06 Mary Renault is a shining light to both historical novelists and their readers She does not pretend the past is like the present or that the people of ancient Greece were just like us She shows us their strangeness discerning sure footed challenging our values piquing our curiosity she leads us through an alien landscape that moves and delights us HILARY MANTEL Mary Renault s portraits of the ancient world are fierce complex and eloquent infused at every turn with her life long passion for the Classics Her characters live vividly both in their own time and in ours MADELINE MILLER Combining the scholarship of a historian with the imagination of a novelist Mary Renault brings the ancient Greek stage thrillingly to life Set in fourth century B C Greece The Mask of Apollo is narrated by Nikeratos a tragic actor who takes with him on all his travels a gold mask of Apollo a relic of the theatre s golden age which is now past At first his mascot the mask gradually becomes his conscience and he refers to

it his gravest decisions when he finds himself at the centre of a political crisis in which the philosopher Plato is also involved. Much of the action is set in Syracuse where Plato's friend Dion is trying to persuade the young tyrant Dionysios the Younger to accept the rule of law. Through Nikeratos' eyes the reader watches as the clash between the two unleashes all the pent up violence in the city. All my sense of the ancient world its values its style the scent of its wars and passions comes from Mary Renault. I turned to writing historical fiction because of something I learned from Renault that it lets you shake off the mental shackles of your own era all the categories and labels and write freely about what really matters to you. EMMA DONOGHUE. There's much to wonder at in the way she fills in the large dark spaces where we know next to nothing about the times she describes. An important and wonderful writer she set a course into serious minded psychologically intense historical fiction that today seems more important than ever. Hailed at its premiere at the London Coliseum in 1986 as the most important musical and theatrical event of the decade *The Mask of Orpheus* is undoubtedly a key work in Harrison Birtwistle's output. His subsequent stage and concert pieces demand to be evaluated in its light. Increasingly it is also viewed as a key work in the development of opera since the Second World War a work that pushed at the boundaries of what was possible in lyrical theatre. In its imaginative fusion of music song drama myth mime and electronics it has become a beacon for many younger composers and the object of wide critical attention. Jonathan Cross begins his detailed study of this lyric tragedy by placing it in the wider context of the reception of the Orpheus myth. In particular the significance of Orpheus for the twentieth century is discussed and this provides the backdrop for an examination of Birtwistle's preoccupation with the story in a variety of works across his creative life. The sources and genesis of *The Mask of Orpheus* are explored. This is followed by a close reading of the work's three acts analysing their structure.

and meaning investigating the relationship between music text and drama drawing on Zinovieff's textual drafts and Birtwistle's compositional sketches The book concludes by suggesting a range of contexts within which *The Mask of Orpheus* might be understood Its central themes of time memory and identity loss mourning and melancholy touch a deep sensibility in late modern society and culture Interviews with the librettist and composer round off this important study **The Celtic**
