Masked Dancers:

An Apache Life-Way Morris Edward Opler, 2018-12-05 A majority of ethnographer Morris Edward Opler's research was done on Native American groups of the American Southwest. He studied specifically the Chiricahua Indians who were the subjects of one of his most famous books *An Apache Life Way: The Economic, Social, and Religious Institutions of the Chiricahua Indians*. Opler studied many Native American groups, but the Apache were a main focus of his. *An Apache Life Way* traces the life of an Apache year by year. Rather than a history, the book explains the day-to-day Apache experience, detailing the chronological order of one's life. The lifestyle described in the book is from a time before the Americans started the long era of hostile interactions with the Apache. The people designated as Apache in this book are those who spoke the Apache language in the area that is now New Mexico, Arizona, Sonora, and Chihuahua. There were many smaller subgroups that populated these areas; three of them are different groups of the Chiricahua Apache. *An Apache Life Way* is divided into several main parts: Childhood, Maturation, Social Relations of Adults, Folk Beliefs, Medical Practice, and Shamanism, Maintenance of the Household, Marital and Sexual Life, The Round of Life, Political Organization and Status, and Death, Mourning, and the Underworld. Each section is divided into more specific subcategories that explore each phase of life and the rituals associated with it. Originally published in 1941, *An Apache Life Way* remains one of the most important and innovative studies of southwestern Native Americans. First class in the best ethnographic tradition, it fills a great gap in our anthropological knowledge and deserves to be one of the most used of American tribal records. Ruth Benedict, author of *Patterns of Culture*. *Korean Mask Dance* Tong-il Cho, 2005-01-01 An introductory volume for the Korean mask dance. In this book, the author's prime object is to relieve the mask dance from the tarnished reputation it suffers as a strange performance for curious onlookers and to show that it deserves proper understanding like other traditional art forms. In order to achieve this goal, the author examines its origin and several phases of its development, discussing the principles of the mask dance under the rules and the conventions of drama. **The Yaka and Suku** Bourgeois, 2023-09-20 Scholarly monographs on the iconography of African religions. **Art of the Cherokee** Susan C. Power, 2007-01-01 In addition to tracing the development of Cherokee art, Power reveals the wide range of geographical locales from which Cherokee art has originated. These places include the Cherokee's tribal homeland in the southeast, the tribe's areas of resettlement in the West, and abodes in the United States and beyond to which individuals subsequently moved. Intimately connected to the time and place of its creation, Cherokee art changed along with Cherokee social, political, and economic circumstances. The entry of European explorers into the Southeast, the Trail of Tears, the American Civil War, and the signing of treaties with the U.S. government are among the transforming events in Cherokee art history that Power discusses. **BOOK JACKET** *The Encoded Cirebon Mask* Laurie Margot Ross, 2016-08-29 In *The Encoded Cirebon Mask: Materiality, Flow, and Meaning along Java's Islamic Northwest Coast*, Laurie Margot Ross situates masks and masked dancing in the Cirebon region of Java, Indonesia, as an original expression of Islam. This is a different view

from that of many scholars who argue that canonical prohibitions on fashioning idols and imagery prove that masks are mere relics of indigenous beliefs that Muslim travelers could not eradicate Making use of archives oral histories and the performing objects themselves Ross traces the mask s trajectory from a popular entertainment in Cirebon once a portal of global exchange to a stimulus for establishing a deeper connection to God in late colonial Java and eventual links to nationalism in post independence Indonesia **Moving History/Dancing Cultures** Ann Dils,Ann Cooper

traditions to negotiate and renegotiate the boundaries of gender and sex sometimes reinforcing lines of demarcation sometimes transgressing them and sometimes doing both simultaneously But Sunardi s investigation moves beyond performance It expands notions of the spiritual power associated with female bodies and feminine behavior and the ways women men and waria males who dress and live as female access the magnetic power of femaleness A journey into understudied regions and ideas Stunning Males and Powerful Females reveals how performances seemingly fixed by tradition are instead dynamic environments for cultural negotiation and change surrounding questions of sex and gender

Playful Performers David Binkley,2017-07-28 African children develop aesthetic sensibilities at an early age roughly from four to fourteen years By the time they become full fledged adolescents they may have had up to ten years experience with various art forms masking music costuming dancing and performance Aesthetic learning is vital to their maturation The contributors to this volume argue that the idea that learning the aesthetics of a culture only occurs after maturity is false as is the idea that children wearing masks is only play and is not to be taken seriously Playful Performers is a study of children s masquerades in Africa The contributors describe specific cases of young children s masking in the areas of west central and southern Africa which also happen to be the major areas of adult masquerading The volume reveals the considerable creativity and ingenuity that children exhibit in preparing costumes masks and musical instruments and in playing music dancing singing and acting The book includes over 50 pages of black and white photographs which illustrate and elaborate upon the authors main points The editors describe general categories of children s masquerades In each of the three masking categories children s relationships to their parents and other adults differ from a close relationship to some independence to almost complete independence No other major work has covered this aspect of African children at this age level The book offers a challenging perspective on young children seeing them as active agents in their own culture rather than passive

recipients of culture as taught by parents and other elders It will be interesting reading for anthropologists art historians educators and African studies specialists alike

Animals and Ancestors Brian Morris,2020-05-21 Ever since the emergence of human culture people and animals have co existed in close proximity Humans have always recognized both their kinship with animals and their fundamental differences as animals have always been a threat to humans well being The relationship therefore has been complex intimate reciprocal personal and crucially ambivalent It is hardly surprising that animals evoke strong emotions in humans both positive and negative This companion volume to Morris important earlier work *The Power of Animals* is a sustained investigation of the Malawi people s sacramental attitude to animals particularly the role that animals play in life cycle rituals their relationship to the divinity and to spirits of the dead How people relate to and use animals speaks volumes about their culture and beliefs This book overturns the ingrained prejudice within much ethnographic work which has often dismissed the pivotal role animals play in culture and shows that personhood religion and a wide range of rituals are informed by and even dependent upon human animal relations
