## Masks Of Time:

*The Masks of Time* Robert Silverberg, 1983      *The Dramatis Masks* Pasquale De Marco, 2025-07-18 In this thought provoking exploration of the masks we wear Pasquale De Marco takes us on a journey through the enigmatic world of masks and the hidden faces they conceal From the grand stages of history to the intimate corners of our hearts masks have long been an integral part of the human experience Through insightful analysis and captivating storytelling Pasquale De Marco unravels the motivations behind our masquerades uncovering the fears desires and insecurities that drive us to hide our true faces from the world We explore the masks we wear in our relationships examining how they shape our interactions with others and how they can either foster intimacy or create barriers We also investigate the masks we wear in the workplace analyzing how they influence our careers and our sense of self worth Furthermore we delve into the masks we wear in our pursuit of happiness and fulfillment uncovering the ways in which they can lead us astray and prevent us from achieving our true potential With a keen eye for detail and a deep understanding of human nature Pasquale De Marco reveals the subtle cues that reveal the hidden truths behind facades empowering us to recognize when others are wearing masks and to communicate more effectively with them Throughout this exploration we gain a deeper understanding of ourselves and the masks we wear We learn to embrace our authentic selves to shed the masks that no longer serve us and to forge genuine connections with others *The Dramatis Masks* is an essential read for anyone seeking to understand the complex interplay between masks and identity It is a book that will challenge your assumptions expand your perspective and inspire you to live a more authentic and fulfilling life If you like this book write a review      [Masks of the Universe](#) Edward Harrison, 2003-05-08 To the ancient Greeks the universe consisted of earth air fire and water To Saint Augustine it was the Word of God To many modern scientists it is the dance of atoms and waves and in years to come it may be different again What then is the real Universe History shows that in every age each society constructs its own universe believing it to be the real and final Universe Yet each universe is only a model or mask of the unknown Universe Originally published in 2003 this book brings together fundamental scientific philosophical and religious issues in cosmology raising thought provoking questions In every age people have pitied the universes of their ancestors convinced that they have at last discovered the ultimate truth Does the modern model stand at the threshold of discovering everything or will it like all the rest come to be pitied      **The Masks of Tragedy** Thomas G. Rosenmeyer, 2013-09-26 What matters about a play is not the extent to which it is like any other play but the way in which it is different writes Thomas G Rosenmeyer This is I suggest how the ancient audiences received the performances My purpose then in writing these essays is twofold to devote enough space to the discussion of each play to allow its special tone and texture to emerge without hindrance and at leisure and to include in one collection analyses of plays so different from one another that the accent will come to rest on the variety of the tragic experience rather than on any one narrowly defined norm Greek tragedy is a vehicle for many different ideas and many different intentions From the

wealth of material that has come down to us the author has chosen six plays for analysis He reminds us that the plays were written to be seen and heard and only secondarily to be studied The listeners expected each play to have a specific objective and to exhibit its own mood These the author attempts to recover for us by listening to what each play in its own right has to say His principal concern is with the tragic diction and the tragic ideas designed to release certain massive responses in the large theater going group of ancient Athens In exploring the characters and the situations of the plays he has chosen the author transports his reader to the world of fifth century B C Greece and establishes the relevance of that world to our own experience The essays are not introductory in nature No space is given for instance to basic information about the playwrights the history of Greek drama or the special features of the Attic stage Yet the book addresses itself to classicists and nonclassicists alike The outgrowth of a series of lectures to nonspecialists its particular appeal is to students of literature and the history of Western thought Parallels are drawn between the writings of the philosophers and the tragedies and attention is paid to certain popular Greek beliefs that colored the tragic formulations Ultimately however the approach is not historical but critical it is the author s intention to demonstrate the beauty and the craftsmanship of the plays under discussion

**Between the Masks** Diane DuBose Brunner, 1998 Between the Masks articulates a study of representation and the politics of place through a pedagogy of narrative performing inquiry and a critical reflection on identity As a resistance to essentialist politics the text focuses on the identity making marking role of cultural materials in the recovery of different and overdetermined histories It proposes a multicultural revision of knowledge that displaces the binarisms of insider outside rather than simply shifting the margin to the center By combining perspectives that produce strong readings with a semiotic method of analysis the essentialist representations of racial ethnic sexual and class biases will be revealed as strategies of power that employ appearance in their seduction By this method Brunner suggests a view of reflexive performance that seeks not to legitimate but to critique displace and liberate these illusions of identity Between the Masks promotes critical teaching that can bring together the literary the historic the theoretical and the sociological Brunner suggests the combined study of cultural studies and education as a theoretical and pedagogical site which embraces curriculum theory teacher preparation and policy This book marks a move toward intertextual interdisciplinary study which will help educators modulate the complicated conversations and contexts of today's schools

**Celebrity in the Time of Covid** Christina S. Beck, 2022-07-25 This work describes the crucial role celebrities played in the emergence of two competing narratives about Covid 19: one a pro science narrative that advocated for preventive measures and the other a skeptical counter narrative that denied the disease's existence or downplayed its severity. During the first postmodern pandemic a slew of interactions took place across a variety of platforms between prominent figures and those who connected with them, forming parasocial communities that framed perspectives on Covid 19. The author first describes how Covid 19 unfolded in the world of sports then goes on to explain how supportive behavior toward public officials fueled the two competing narratives, emphasizing how celebrities themselves aided in the development of common perspectives. The text concludes with a description of how citizens initially regarded health care professionals as heroes but even the most powerful public appeals could not persuade some that Covid 19 posed a genuine threat. Exploring the polarity of publicly held beliefs, this book documents how celebrity advocacy had a lasting effect on people's health choices during a global pandemic.
