Masks of Wedlock David Ross Smith,1982 *Masks of Wedlock Seventeenth-Century Dutch Marriage Portraiture* David R. Smith,1982 **Manhood, Marriage, & Mischief** Harry Berger,2007 Publisher description *Vows, Veils, and Masks* Beth Wynstra,2023-07-07 Vows Veils and Masks offers a bold and timely approach to the plays of Eugene O'Neill with its attention to the engagements weddings and marriages so crucial to the tragic action in O'Neill's works Specifically the book examines the culturally sanctioned traditions and gender roles that underscored marital life in the early twentieth century and that still haunt and define love and partnership in the modern age Weaving in artifacts like advice columns advertisements theatrical reviews and even the lived experiences of the actors who brought O'Neill's wife characters to life Beth Wynstra points to new ways of seeing and empathizing with those who are betrothed and new possibilities for reading marriage in literary and dramatic works She suggests that the various ways women were and still are expected to divert from their true ambitions desires and selves in the service of appropriate wifely behavior is a detrimental performance and one at the crux of O'Neill's marital tragedies This book invites more inclusive and nuanced ways of thinking about the choices married characters must make and the roles they play both on and off the stage *The Sight of Sound* Richard Leppert,1993-12-01 Richard Leppert boldly examines the social meanings of music as these have been shaped not only by hearing but also by seeing music in performance His purview is the northern European bourgeoisie principally in England and the Low Countries from 1600 to 1900 And his particular interest is the relation of music to the human body He argues that musical practices invariably linked to the body are inseparable from the prevailing discourses of power knowledge identity desire and sexuality With the support of 100 illustrations Leppert addresses music and the production of racism the hoarding of musical sound in a culture of scarcity musical consumption and the policing of gender the domestic piano and misogyny music and male anxiety and the social silencing of music His unexpected yoking of musicology and art history in particular his original insights into the relationships between music visual representation and the history of the body make exciting reading for scholars students and all those interested in society and the arts *Realism and Role-Play* Marika Takanishi Knowles,2020-12-09 After the heroic nudes of the Renaissance and depictions of the tortured bodies of Christian saints early seventeenth century French artists turned their attention to their fellow humans to nobles and beggars seen on the streets of Paris to courtesans standing at their windows to vendors advertising their wares to peasants standing before their landlords Realism and Role Play draws on literature social history and affect theory in order to understand the way that figuration performed social positions Fictions of the Pose Harry Berger,2000 This lavishly illustrated reading of the structure and meaning of portraiture asks what happens when portraits are interpreted as imitations or likenesses not only of individuals but also of their acts of posing Includes 84 illustrations 40 in color **Antebellum American Pendant Paintings** Wendy N. E. Ikemoto,2017-07-06 Antebellum American Pendant Paintings New Ways of Looking marks the first

sustained study of pendant paintings discrete images designed as a pair It opens with a broad overview that anchors the form in the medieval diptych religious history and aesthetic theory and explores its cultural and historical resonance in the 19th century United States Three case studies examine how antebellum American artists used the pendant format in ways revelatory of their historical moment and the aesthetic and cultural developments in which they partook The case studies on John Quidor's *Rip Van Winkle and His Companions at the Inn Door* of Nicholas Vedder 1839 and *The Return of Rip Van Winkle* 1849 and Thomas Cole's *Departure and Return* 1837 shed new light on canonical antebellum American artists and their practices The chapter on Titian Ramsay Peale's *Kilauea by Day and Kilauea by Night* 1842 presents new material that pushes the geographical boundaries of American art studies toward the Pacific Rim The book contributes to American art history the study of a characteristic but as yet overlooked format and models for the discipline a new and productive framework of analysis focused on the fundamental yet complex way images work back and forth with one another

Out of Wedlock Larry Wu, Barbara Wolfe, 2001-07-12 Today one third of all American babies are born to unmarried mothers a startling statistic that has prompted national concern about the consequences for women children and society Indeed the debate about welfare and the overhaul of the federal welfare program for single mothers was partially motivated by the desire to reduce out of wedlock births Although the proportion of births to unwed mothers has stopped climbing for the first time since the 1960s it has not decreased and recent trends are too complex to attribute solely to policy interventions What are these trends and how do they differ across groups Are they peculiar to the United States or rooted in more widespread social forces Do children of unmarried mothers face greater life challenges and if so what can be done to help them *Out of Wedlock* investigates these questions marshalling sociologists demographers and economists to review the state of current research and to provide both empirical information and critical analyses The conflicting data on nonmarital fertility give rise to a host of vexing theoretical methodological and empirical issues some of which researchers are only beginning to address *Out of Wedlock* breaks important new ground bringing clarity to the data and examining policies that may benefit these particularly vulnerable children
