State as a case study Moore not only analyzes the design and construction of Masonic structures and provides their historical context but he also links the temples to American concepts of masculinity during this period of profound economic and social transformation By examining edifices previously overlooked by architectural and social historians Moore decodes the design and social function of Masonic architecture and offers compelling new insights into the construction of American masculinity Four distinct sets of Masonic ritual spaces the Masonic lodge room the armory and drill room of the Knights Templar the Scottish Rite Cathedral and the Shriners mosque form the central focus of this volume Moore argues that these spaces and their accompanying ceremonies communicated four alternative masculine archetypes to American Freemasons the heroic artisan the holy warrior the adept or wise man and the frivolous jester or fool Although not a Freemason Moore draws from his experience as director of the Chancellor Robert R Livingston Masonic Library in New York City where he utilized sources previously inaccessible to scholars His work should prove valuable to readers with interests in vernacular architecture material culture American studies architectural and social history Freemasonry and voluntary associations

An Introduction to Freemasonry Harry LeRoy Haywood, 1925

Freemasonry in Black and White Charles Harper, 2013-08-20 For too long the norms of society found its way into Freemasonry and have influenced the moral compass of a Masonic Lodge instead of the beauty of Freemasonry being taught and sending this light into the world within enlightened minds that produces a better society This has created a domino effect of high visibility with negative repercussions that is gaining traction with the ability of masons to communicate and see masonry practiced in all parts of the world like never before Now is the time to halt the slide and get back to the foundation and intent of the craft This book is the baring of my thoughts mistakes and ultimately my clarity of mind and spirit This book is my story my ideas and my vision to a better social climate within the Fraternity It is my humble experience in Black and White

Freemasonry in Black and White Charles Harper, 2013-05-26 For too long have the norms of society found its way into Freemasonry and leading men of a Masonic Lodge instead of the beauty of Freemasonry being taught and sending this light into the world within enlightened minds that produces a better society The knowledge found within the walls of a lodge can make a man truly a better man within his faith a better father son husband and ultimately a better man for the world There are issues academic and social that are preventing this process from happening in Masonic lodges today For centuries a Masonic Lodge has been the place of higher learning Kings scholars presidents white collar and blue collar individuals have all advanced the beauty that the Creator of humankind God has innately placed within each of us Like the power of centripetal force goodness revolving in the center attracts goodness to it In America this circular motion is stalling and causes a regression in positive men emanating the beauty of the craft into society Quietly the separation of men due to the darkness of America s past hampers the liberation of each heart A lack of the ability to invest time in each Mason as was available in the past during the golden age of the fraternity to instill in him the beauty of truly being a point within a circle of ALL mankind has created a domino effect of negative repercussions that is gaining traction with the ability of masons to communicate and see masonry practiced in all parts of the world like never before Now is the time to halt the slide and get back to the foundation and intent of the craft No longer can we quietly hide behind the long existing reverence and mystic of the craft and hope the social issues that led to a division of men and the lack of holding each Brethren accountable of the responsibility to Master the Craft and being truly declared a Master Builder will quietly be held to a minimum until the

Fraternity recovers by a hopeful influx of new inventive minds These men are already here entering our lodges seeking light and finding the old ideas working against new ones Traditions founded out of practice and not of ancient usage and logic guarding the door of true spiritual growth Men seeking knowledge should not be outcasts within the minority There does exist Masonic Grand Lodges that are proactive in these departments but they are not enough If we are to continue to produce men that are to lead society into the beautiful humanity that God intends and that our ancient knowledge was designed to induce we must all be on one accord There can be no waves in the ocean if the planet wasn't moving The waves of the ocean transport energy around the world I have always been a wave but with insight of experience and knowledge gained through proper tutoring and research I am a wave with a purpose as well This book is the baring of my thoughts mistakes and ultimately my clarity of mind and spirit This book is my story my ideas and my vision to a better social climate within the Fraternity It is my humble experience in Black and White
