Metaphysical

Answers to Metaphysical Questions (Book -1) Mustafa Karnas, 2021-02-12 PRESENTATION This book covers the answers to the questions that arise during the training lessons on Becoming Metaphysics Metaphysics Noetics Religions History of Religions Esoteric Behavioral Sciences Our Behaviors Development Secrets Esoteric Occult Enoch Wisdom and many other questions asked by those who attended the training were answered by Mustafa KARNAS and this question was named as being Metaphysical with answers educational information is included in this book In the following five subjects Being metaphysical 1 Managing your own life 2 Managing the flow of events 3 leading the flow of destiny 4 Managing the future 5 Managing information Mustafa KARNAS BEING METAPHYSICAL Our topic is to manage the flow of destiny how will we manage our destiny How easy it is but hard when you don't know Let's examine the question of what is to know knowing is like opening Matryoshka dolls you go to the deepest knowing at every trench becomes a function What else is to know Knowing is holding holding is determining a space between references that is knowing is measuring The only reason we know is because we can measure what we measure is what we perceive What we perceive means something other than references created by what we know what we know is what we learned by measuring knowing also means understanding by changing the measures With each change of measure or reference the shape of the information also changes so the knowing function continues by updating the previously known With these constantly changing references even if the information is the same with the measurements forming a different judgment on everyone the projection of everyone will be different Knowing can only happen with the approval of others so we know what we know only in others we cannot know anything in ourselves The most important of the references that tell us what we know are their projections reflections For example if we hear ringing bells in a rural area even if we do not see it he tells us that there is a sheep goat cow herd in a place we cannot see but can hear in the future with a shepherd and shepherd dogs Just a bell and a bell show that we know all these things and if we turn it on we will move away from the sound if we are afraid of the shepherd dog attack but if we need help we approach the sound and so on We know because everything we know exists on a scale if it did not exist on a measure nothing we know would be because we will never see what we see again so every we see will be what we do not know and we would never know Although never knowing is a true reality the only reason we know is that human perception violated by the law of uncertainty has created constants for itself within the existing laws of existence That is we are bodies and souls trapped in a continuous repetition of the like in a cyclical hermetic matrix Therefore the flow which is in fact uncertainty becomes a reality in a narrow space within us and the measurements we make in that area are always stable so we know or we would never have known The way we know something is influenced by the way the brain processes it the brain processes information compares the two when a new flow of information arrives and orders the motor cortex accordingly So the only reason we know is because the measurements are stored in snaps stability and stability is that the brain arranges a mess in its own way For example you go to visit someone there is a dog at the door the man says don't be afraid they won't bite You

don't have this information you have it Again you go to a yacht for a guest screams coming from the upper floor at 12 at night you worry you say Don't be afraid there is nothing the man is watching a movie these are the information that everybody gets by measuring the motor cortex and snaps What else is measuring does anyone have an idea Another concept means to measure Measure means destiny We have created you on a scale that is we have created you on a fate our subject is destiny So as long as you stay within the measured your destiny is determined If the measurements change the fate also changes because the main thing is the law that is the law of measure appears as projective realities in the form of an array of possibilities in every measurement but when there is an action to change the measurement a new measurement is made subject to another law of creation Therefore the only fate determined is laws that is the rules of the laws of measurement never change but the fate of the person changes with different laws and measurements Whose destiny is the fate mentioned And let's come to the subject of death whose term is the term with whom is the agreement made **The Rosicrucian Philosophy in Questions and Answers** Max Heindel, 1947 *The Complete Idiot's Guide to Freemasonry* S. Brent Morris, 2006 In *The Complete Idiot's Guide to Freemasonry* an expert author reveals the truths and dispels the myths that have surrounded the Freemasons for hundreds of years Were the first masons 14th century stone masons and cathedral builders or can Freemasonry really be traced back as far as Egypt Babylon and Palestine The Masonic insistence on the belief in a Supreme Being The Masons and the Knights Templar True or false the Masons coordinated the Boston Tea Party and the American Revolution How are Masons initiated and exactly what goes on in a Masonic lodge What's the difference between the York Rite and the Scottish Rite and are there women and African American Freemasons The Masons in the streets of Washington DC a tour *Freemasonry* Jack Harris, 2015-10-01 Millions Deceived in a Secret Cult A former Worshipful Master of a Masonic lodge Jack Harris authoritatively speaks about one of the most deceptive cults in the United States today This secret organization has entangled ministers elders deacons trustees Sunday school teachers and people all over the world in a web of lies and satanic rituals all of which are veiled with the language of the Bible Revealed in this book are The origins and history of Freemasonry Its basic doctrines and goals The secret of passwords and oaths The supreme Masonic word The satanic symbolism and rituals Freemasonry is a false religion It teaches that men can approach God not through the finished work of Jesus Christ but through their own abilities Discover how you can share the light of Christ with those living in the darkness of Freemasonry and how they can be set free from its deception Traveling East Ronald E.
