Mass Mediations New Approaches To Popular Culture In The Middle East And Beyond:

Mass Mediations Walter Armbrust, 2000-09-19 This book takes a new approach to studying the contemporary Middle East focusing on popular culture including film music and television Innovative essays by a group of smart young scholars in anthropology history and ethnomusicology *Popular Culture in the Middle East and North Africa* Walid El Hamamsy, Mounira Soliman, 2013-01-04 This book explores the body and the production process of popular culture in and on the Middle East and North Africa Turkey and Iran in the first decade of the 21st century and up to the current historical moment Essays consider gender racial political and cultural issues in film cartoons music dance photo tattoos graphic novels fiction and advertisements Contributors to the volume span an array of specializations ranging across literary postcolonial gender media and Middle Eastern studies and contextualize their views within a larger historical and political moment analyzing the emergence of a popular expression in the Middle East and North Africa region in recent years and drawing conclusions pertaining to the direction of popular culture within a geopolitical context The importance of this book lies in presenting a fresh perspective on popular culture combining media that are not often combined and offering a topical examination of recent popular production aiming to counter stereotypical representations of Islamophobia and otherness by bringing together the perspectives of scholars from different cultural backgrounds and disciplines The collection shows that popular culture can effect changes and alter perceptions and stereotypes constituting an area where people of different ethnicities genders and orientations can find common grounds for expression and connection Approaches to Arabic Popular Culture Konerding, Peter, Wiedemann, Felix, Behzadi, Lale, 2021-09-27 Over recent years Arabic popular culture has become a focal point of West Asian and North African studies Most of the new research dealing with it concentrates on the popular as opposed to an intellectual high culture far from the harsh and hierarchically organized reality many Arabic speaking societies face today Popular cultural practices are thus seen as a rejection of the elite and a stance against those who have something to loose within paralyzed and conservative communities Albeit not denying the subversive political potential associated with these practices this volume intends to take a more nuanced and broader perspective Arabic popular culture might engage with emancipatory claims but it might as easily follow the capitalist rulebook of global marketing It might fight against oppressive authorities yet it can equally become their symbol 0Approaches to Arabic Popular Culture therefore closely looks at the aesthetic implications of a topic ranging from Lebanese hip hop over Algerian pop novels to jihadi chants in the Islamic State as well as from Egyptian mahraganat music over sarcastic stories about hash dens and time travel in downtown Cairo to Saudi Arabian YouTube influencers Thus the theoretical scope widens and the reader is taken on a delightful journey to the unsettling pleasures of contemporary Arabic art and culture **The Arab Nahda as Popular Entertainment**, 2023-11-16 What was popular entertainment like for everyday Arab societies in Middle Eastern cities during the long nineteenth century In what ways did caf culture theatre illustrated periodicals cinema cabarets and festivals serve

as key forms of popular entertainment for Arabic speaking audiences many of whom were uneducated and striving to contend with modernity's anxiety inducing realities Studies on the 19th to mid 20th century's transformative cultural movement known as the Arab nahda renaissance have largely focussed on concerns with nationalism secularism and language often told from the perspective of privileged groups Highlighting overlooked aspects of this movement this book shifts the focus away from elite circles to quotidian audiences Its ten contributions range in scope from music and visual media to theatre and popular fiction Paying special attention to networks of movement and exchange across Arab societies in Lebanon Syria Egypt Iraq and Morocco this book heeds the call for translocal transnational cultural histories while contributing to timely global studies on gender sexuality and morality Focusing on the often marginalized frequenters of cafés artist studios cinemas nightclubs and the streets it expands the remit of who participated in the nahda and how they did

Popular Culture in the Arab World Andrew Hammond, 2007 This volume explores Arab cultural life since World War II Chapters cover topics such as radio TV the press cinema music theatre popular religion belly dance western consumerism sport and the Arabic language *Music and Media in the Arab World* Michael Frishkopf, 2010-09-01 Since the turn of the twentieth century the dramatic rise of mass media has profoundly transformed music practices in the Arab world Music has adapted to successive forms of media dissemination from phonograph cylinders to MP3s each subjected to the political and economic forces of its particular era and region Carried by mass media the broader culture of Arab music has been

thoroughly transformed as well. Simultaneously, mass-mediated music has become a powerful social force. While parallel processes have unfolded worldwide, their implications in the Arabic-speaking world have thus far received little scholarly attention. This provocative volume features sixteen new essays examining these issues, especially televised music and the controversial new genre of the music video. Perceptive voices, both emerging and established, represent a wide variety of academic disciplines. incisive essays by Egyptian critics display the textures of public Arabic discourse to an English readership. Authors address the key issues of contemporary Arab society: gender and sexuality, Islam, class, economy, power, and nation, as refracted through the culture of mediated music. Interconnected by a web of recurrent concepts, this collection transcends music to become an important resource for the study of contemporary Arab society and culture.

Pop Culture Arab World! Andrew Hammond, 2004-12-15. The first book to explore how Arab pop culture has succeeded in helping forge a pan-Arab identity where Arab nationalism has failed. *Pop Culture Arab World* is the first volume to explore the full scope of Arab cultural life since World War II. The book reveals a homogeneous yet richly diverse culture across the Arab nations. In-depth chapters feature radio, TV, particularly the satellite revolution, which has fostered a shared Arab identity, the press, vibrant and controversial cinema, once thriving, now in crisis, music, the beating heart of modern Arabness, theater, a largely assimilated Western import, popular religion, belly dance, originating in the Arab world, Western consumerism, sport, and the Arabic language for Muslims, the tongue of God's final revelation. At a time when almost all we see of the Middle East is violence, oppressive nationalism, dangerous zealotry, and despair, this book is a vivid reminder of the humanity of the region's diverse people.

Popular Culture and Nationalism in Lebanon Christopher Stone, 2007-09-12. Based on an award-winning thesis, this volume is a pioneering study of musical theatre and popular culture and its relation to the production of identity in Lebanon in the second half of the twentieth century. In the aftermath of the departure of the French from Lebanon and the civil violence of 1958, the Rahbani brothers, Asi and Mansour, staged a series of folkloric musical theatrical extravaganzas at the annual Baalbek festival, which highlighted the talents of Asi's wife, the Lebanese diva Fairouz, arguably the most famous living Arab singer. The inclusion of these folkloric vignettes into the festival's otherwise European-dominated cultural agenda created a powerful nation-building combination of what Partha Chatterjee calls the appropriation of the popular and the classicization of tradition. The Rahbani project coincides with the confluence of increasing internal and external migration in Lebanon, as well as with the rapid development of mass media technology, of which the Baalbek festival can be seen as an extension. Employing theories of nationalism, modernity, globalism, and locality, this book shows that these factors combined to give the project a potent identity-forming power. *Popular Culture and Nationalism in Lebanon* is the first study of Fairouz and the Rahbani family in English and will appeal to students and

researchers in the field of Middle East studies Popular culture and musical theatre *Arab Cultural Studies* Tarik Sabry, 2011-11-30 *Arab Cultural Studies Mapping the Field* is the first attempt to explore ways of conceptualising and theorising the nascent field of Arab Cultural Studies It reflects and engages in an interdisciplinary discussion on the different facets of Arab cultural studies including gender economy history epistemology language method politics literary and cultural criticism institutionalization popular culture creativity and much more The book presents a meta narrative about how scholars have thus far thought and re thought the field It brings together prominent and emerging experts writing from both Arab and Western academia to engage with key complex epistemic and methodological questions and to articulate in the meantime the new kinds of language and hermeneutics necessary for the appropriation of an historically conscious and coherent field of scientific enquiry into contemporary Arab media culture and society **Unknown Past** Hanan Hammad, 2022-05-10 A biography of the Cinderella of Egyptian cinema the veneration and rumors that surrounded an unparalleled career and the gendered questions that unsettled Egyptian society Layla Murad 1918 1995 was once the highest paid star in Egypt and her movies were among the top grossing in the box office She starred in 28 films nearly all now classics in Arab musical cinema In 1955 she was forced to stop acting and struggled for decades for a comeback Today even decades after her death public interest in her life continues and new generations of Egyptians still love her work *Unknown Past* recounts Murad s extraordinary life and the rapid political and sociocultural changes she witnessed Hanan Hammad writes a story centered on Layla Murad s persona and legacy and broadly framed around a gendered history of twentieth century Egypt Murad was a Jew who converted to Islam in the shadow of the first Arab Israeli war Her career blossomed under the Egyptian monarchy and later gave a singing voice to the Free Officers and the 1952 Revolution The definitive end of her cinematic career came under Nasser on the eve of the 1956 Suez War Egyptians have long told their national story through interpretations of Murad s life intertwining the individual and Egyptian state and society to better understand Egyptian identity As *Unknown Past* recounts there s no life better than Murad s to reflect the tumultuous changes experienced over the dramatic decades of the mid twentieth century Religion, Media, and the Public Sphere Birgit Meyer, Annelies Moors, 2005-12-01 one of those rare edited volumes that advances social thought as it provides substantive religious and media ethnography that is good to think with Dale Eickelman Dartmouth College Increasingly Pentecostal Buddhist Muslim Jewish Hindu and indigenous movements all over the world make use of a great variety of modern mass media both print and electronic Through religious booklets radio broadcasts cassette tapes television talk shows soap operas and documentary film these movements address multiple publics and offer alternative forms of belonging often in competition with the postcolonial nation state How have new practices of religious mediation transformed the public sphere How has the adoption of new media impinged on religious experiences and notions of religious authority Has neo liberalism engendered a blurring of the boundaries between religion and entertainment The vivid essays in this interdisciplinary volume

combine rich empirical detail with theoretical reflection offering new perspectives on a variety of media genres and religions

Islamism and Cultural Expression in the Arab World Abir Hamdar, Lindsey Moore, 2015-04-10 Whereas most studies of Islamism focus on politics and religious ideology this book analyses the ways in which Islamism in the Arab world is defined reflected transmitted and contested in a variety of creative and other cultural forms It covers a range of contexts of production and reception from the early twentieth century to the present and with reference to cultural production in and or about Morocco Algeria Tunisia Egypt Yemen the Gulf Lebanon and Israel Palestine The material engaged with is produced in Arabic English and French and includes fiction autobiography feature films television series television reportage the press rap music and video games Throughout the book highlights the multiple forms and contested interpretations of Islamism in the Arab world exploring trends and tensions in the ways Islamism is represented to primarily Arab audiences and complicating simplistic perspectives on this phenomenon The book considers repeated and idiosyncratic themes modes of characterisation motifs structures of feeling and forms of engagement in the context of an ongoing struggle for symbolic power in the region

Beyond Turkey's Borders Banu Senay, 2012-12-05 In an increasingly connected world the engagement of diasporic communities in transnationalism has become a potent force Instead of pointing to a post national era of globalised politics as one might expect Banu Senay argues that expanding global channels of communication have provided states with more scope to mobilise their nationals across borders Her case is built around the way in which the long reach of the proactive Turkish state maintains relations with its Australian diaspora to promote the official Kemalist ideology Activists invest themselves in the state to see both for and like the state and as such Turkish immigrants have been politicised and polarised along lines that reflect internal divisions and developments in Turkish politics This book explores the way in which the Turkish state injects its presence into everyday life through the work of its consular institutions its management of Turkish Islam and its sponsoring of national celebrations The result is a state engineered transnationalism that mobilises Turkish migrants and seeks to tie them to official discourse and policy Despite

this individual Kemalist activists dissatisfied with the state's transnational work have appointed themselves as the true cultural attachés of the Turkish Republic. It is the actions and discourses of these activists that give efficacy to trans-Kemalism in the unique migratory context of Australian multiculturalism. Vital to this engagement is its Australian backdrop where ethnic diversity policies facilitate the nationalising initiatives of the Turkish state as well as the bottom-up activism of Atatürkists. On the other hand, it also complicates and challenges trans-Kemalism by giving a platform to groups such as Kurds or Armenians whose identity politics clash with that of Turkish officialdom. An original and insightful contribution on the scope of transnationalism and cross-border mobilisation, this book is a valuable resource for researchers of politics, nationalism and international migration.

The Oxford Handbook of Music Censorship Patricia Ann Hall, 2018. Addresses censorship as a worldwide issue from its earliest recorded form to the modern day. Includes unique case studies of music censorship unfamiliar to Western audiences. Documents censorship through a necessarily intersectional lens. Oxford University Press.

The Handbook of Global Media Research Ingrid Volkmer, 2015-07-07. The Handbook of Global Media Research. Ingrid Volkmer has collected an admirably rich, thought-provoking and diverse collection of views to guide critical scholarship as our topic: the media and media cultures, methods which must now be comparative and the knowledge we produce are all transformed by globalization. Sonia Livingstone, author of *Media Regulation, Governance and the Interests of Citizens and Consumers*. In this handbook, leading academic and practitioner analysts give us valuable insight into globalized forms of communication, their diversity, the global-local dialectic and the challenges of critical historical and comparative study of transnational media and communication. Robin Mansell, author of *Imagining the Internet: Communication, Innovation and Governance*. With a stellar list of contributors and an engagement with the global that both traces and transcends its boundaries, Ingrid Volkmer's volume is the cardinal chart of our media worlds. Mark Deuze, author of *Media Life and Media Works*. This is a long-overdue volume. The distinguished contributors to *The Handbook of Global Media Research* have produced a challenging and authoritative guide to understanding the latest developments in global media. Thomas R. Lindlof, University of Kentucky. As new forms of media proliferate and communication becomes ever more global, transnational media is increasingly capable of both enhancing political, cultural and economic globalization and shaping worldviews and civic identity. Research into the development of transnational media is therefore an essential element of understanding the changes created by advanced globalization. *The Handbook of Global Media Research* explores and

articulates the key themes and competing approaches of this dynamic and developing field Bringing together the ideas of more than 40 internationally respected authors from around the world it provides valuable and varied insights into a globalized media landscape setting the agenda for the future of transnational media and communications research

Cultural Encounters in the Arab World Tarik Sabry, 2010-09-30 In this groundbreaking book Tarik Sabry is seeking out the terrain for best understanding the experience of being modern in transitional societies He adopts a dynamic ethnographically based approach to the meanings of modernness in the Arab context and within a relational framework focuses on structures of thought everydayness and self referentiality to explore the process of building a bridge that rejoins the modern in Arab thought with the modern in Arab lived experience In bringing together modernity as a philosophical category with the bridging spaces of Arab everyday life Sabry is offering fresh methods of comprehending the question of what it means to be modern in the Arab world today
