Politics and the News Media in Japan Ofer Feldman, 1993 An in depth look at the way journalists and politicians work together in Japan **Magazines and the Making of Mass Culture in Japan** Amy Bliss Marshall, 2018 Magazines the Making of Mass Culture in Japan provides a detailed yet approachable analysis of the mechanisms central to the birth of mass culture in Japan by tracing the creation production and circulation of two critically important family magazines Kingu

King and Ie no hikari Light of the Home These magazines served to embed new instruments of mass communication and socialization within Japanese society and created mechanisms to facilitate the dissemination of hegemonic forms of discourse in Japan in the first half of the twentieth century The amazing success of Kingu and Ie no hikari during the 1920s and 1930s not only established and normalized participation in a Japanese mass national audience a community which had previously not existed but also facilitated the rise of Japanese mass consumer culture in the postwar years Amy Bliss Marshall Argues that the postwar mass Japanese national consumer is foreshadowed by the mass national audience created by family magazines of the interwar era This book analytically narrates the creation and development of such publications one explicitly capitalist and one outwardly agrarian based on missions with an overarching desire to create a mass Japanese magazine audience Magazines the Making of Mass Culture in Japan highlights the importance of the seemingly innocuous acts of mass leisure consumption of magazines and the goods advertised therein thus aiding our understanding of the creation and direction of a new form of social participation and understanding an essential part of not only the culture but also the politics of the transwar period

Tomiko Yoda Alexander Zahlten **The Politics of Public Broadcasting in Britain and Japan** Henry Laurence, 2022-07-29 The BBC and NHK have dominated their national media systems since the 1920s and still play a central role in shaping political social and cultural life Both are highly trusted news organizations and vitally influence national identity Yet despite remarkably similar organizational and funding structures they differ in their editorial autonomy relationship to the state and in the social and cultural roles they play While the BBC proud of its independence acts as a watchdog on the powerful NHK prefers a guide dog role cooperating with rather than confronting political elites The BBC is also more willing to challenge prevailing social norms often serving as an agent of social change NHK prefers to avoid controversy serving as an agent of social stability The book argues that these differences were shaped by decades of conflict and cooperation between broadcasters governments commercial media interest groups and audiences The broadcasters adopted distinctive editorial strategies to retain public support and elite approval in the face of technological upheaval hostility from commercial rivals and continuous political interference Both however continue to uphold the belief that democratic and social goals are better served by public rather than commercial media **Asian Mass Communications** John A. Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Media and Politics in Japan Susan Pharr, Ellis S. Krauss, 1996-03-01 Japan is one of the most media saturated societies in the world The circulations of its big five national newspapers dwarf those of any major American newspaper Its public service broadcasting agency NHK is second only to the BBC in size And it has a full range of commercial television stations

high brow and low brow magazines and a large anti mainstream media and mini media Japanese elites rate the mass media as the most influential group in Japanese society But what role do they play in political life Whose interests do the media serve Are the media mainly servants of the state or are they watchdogs on behalf of the public And what effects do the media have on the political beliefs and behavior of ordinary Japanese people These questions are the focus of this collection of essays by leading political scientists sociologists social psychologists and journalists Japan s unique kisha press club system its powerful media business organizations the uses of the media by Japan s wily bureaucrats and the role of the media in everything from political scandals to shaping public opinion are among the many subjects of this insightful and provocative book
