China Kevin Latham, Stuart Thompson, Jakob Klein, 2012-08-21 Post Mao China has been characterized in literature and the media as a burgeoning consumer society Consuming China investigates this characterization by examining the cultural significance of consumption and consumerism in the People's Republic of China today In questioning the notion of consumption this impressive work suggests that it is not simply a symptom of economic reform within China neither a product of the emergence and transformation of contemporary Chinese capitalism Rather the essays offer a new perspective on Chinese consumption by focusing on more than just consumerism looking at the practices of consumption in relation to different manifestations of social and cultural change Drawing on case studies from Taiwan Hong Kong and the People's Republic of China Consuming China affords a greater understanding of the practice of Chinese consumption and will appeal to China scholars and anthropologists and to those with an interest in cultural and gender studies Confucian Perspectives on Learning and Self-Transformation Roland Reichenbach, Duck-Joo Kwak, 2020-05-18 This book bridges the regions of East Asia and the West by offering a detailed and critical inquiry of educational concepts of the East Asian tradition It provides educational thinkers and practitioners with alternative resources and perspectives for their educational thinking to enrich their educational languages and to promote the recognition of educational thoughts from different cultures and traditions across a global world The key notions of Confucian and Neo Confucian philosophy directly concern the ideals processes and challenges of learning education and self transformation which can be seen as the western equivalences of liberal education including the German concept of Bildung All the topics in the book are of fundamental interest across diverse cultures giving a voice to a set of long lasting and yet differentiated cultural traditions of learning and education and thereby creating a common space for critical philosophical reflection of one's own educational tradition and practice The book is especially timely given that the vocabularies in educational discourse today have been dominantly West centred for a long time even while the whole world has become more and more diverse across races religions and cultures It offers a great opportunity to philosophers of education for their cross cultural understanding and self understanding of educational ideas and practices on both personal and institutional levels Lodging, Restaurant and Tourism Index, 1998 **Leadership Transformed: How Ordinary Managers Become Extraordinary Leaders** Peter Fuda, 2013 How ordinary managers become extraordinary leaders Jacket Everything Rosie Patrick Spreng, 1998 Everything Rosie is an information packed guide for the fan who wants to know all there is to know about Rosie O'Donnell and The Rosie O'Donnell Show From the tragic loss of her mother at age ten to discovering the joys of motherhood with her own adopted son Parker hers is a story of well earned success This unabashed celebrity watcher has become one of today's most loved celebrities herself And now as the Queen of Nice she has revitalized TV talk shows Rosie provides a positive role model for many especially overweight teens and adults who have had enough of dieting and who just want to feel good about themselves Readers of Everything Rosie will find a concise detailed Rosie biography plus commentary and excerpts from her stand up act a chronicle of her many film and television
