**Stand Alone Stan** Phillip Mann,2011-09-29 Britannia 1993 In a world where the Roman legionaries never left Britain a man can walk from the walls of York or Eboracum to the southern seas without leaving the shade of the greenwood inhabited by wildcats wolves and bears as well as the descendants of the folk who built Stonehenge Solar powered air cars journey along straight roads that connect them to the Roman settlements and link them to the cities of a global empire When a jealous feud forced three young people into the forest they discovered an older Britain where the rules of rational Rome no longer applied But now their sanctuary has been besieged and they are once more on the run Their destination this time is Stand Alone Stan a community built around an ancient standing stone high on the Yorkshire Moors And it is here that their paths must at last diverge and we begin to suspect the very different destinies that await them Stand Alone Stan is the second volume of A Land Fit for Heroes

**Pioneers** Phillip Mann,2011-09-29 Blue Genes Ape like and with one arm replaced by a claw the not quite human Angelo and his beautiful female partner Ariadne are genetically bred rescuers programmed to travel vast distances through space in suspended animation to bring back Pioneers explorers sent out from Earth generations ago to settle other planets The latest mission is to rescue Pioneer Murray from the planet La Plage and to return to Earth where as usual decades have passed while they have been travelling between the stars But Earth itself has gone through a catastrophic collapse from which its burnt out civilization is trying to recover And amongst the remnants of a sterile and despairing humanity there is less room than ever before for such strange creatures as Angelo Combining rich and weird alien environments with exciting deep space adventure Pioneers is a brilliant novel of love and alienation in a strange and poignant future
