Mastering Biology:

Mastering Biology Fred Kilgour, Peter Riley, 1999-11-11 Mastering Biology 3rd edition has been fully revised and updated to provide the information required for today's syllabuses. The book provides an interactive element where the readers can focus on the learning objectives, find them easily in each chapter, check their knowledge and understanding by answering the wide-ranging questions and revise their work using the end of chapter summaries. Mastering Biology can be a useful primer for students beginning A Level Biology after studying an integrated course at GCSE. It will also appeal to further education students.

Biology Colleen Belk, Virginia Borden Maier, 2019 NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the Mastering™ platforms exist for each title and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID which your instructor will provide. Used books, rentals, and purchases made outside of Pearson: If purchasing or renting from companies other than Pearson, the access codes for the Mastering platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

For non-majors biology courses: This package includes Mastering Biology Engage, students in science with stories that relate to their lives. Biology Science for Life weaves a compelling storyline throughout each chapter to grab student attention through the exploration of high-interest topics such as genetic testing, global warming, and the Zika virus. The authors return to the storyline again and again, using it as the basis on which they introduce the biological concepts behind each story. In the 6th Edition, new active learning features and author-created resources help instructors implement the storyline approach in their course. The Big Question is a new feature that helps students learn how to use data to determine what science can answer while developing their ability to critically evaluate information. Personalize learning with Mastering Biology. Mastering™ is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office hour experience, Mastering personalizes learning and often improves results for each student. New to the 6th edition are author-created Figure Walkthrough videos that guide students to solidify their understanding of the concepts within challenging illustrations, as well as Make the Connection activities that help students bridge the gap between each storyline and the science behind it, as well as Ready to Go Teaching Modules for select chapters that provide instructors with assignments to use before and after class, as well as in-class activities.

This package includes a physical copy of *Biology: A Global Approach* 10e by Campbell as well as access to the eText and MasteringBiology. Your instructor will need to provide you with a course ID in order for you to access the eText and MasteringBiology. This is a Pearson Global Edition. The Pearson Editorial team worked closely with educators around the world to include content especially relevant to students outside of the United States. The Tenth Edition of the best-selling text Campbell BIOLOGY helps launch students to success in biology through its clear and engaging narrative, superior pedagogy and innovative use of art and photos to promote student learning. The Tenth Edition helps students develop a deeper understanding of biology by making connections visually across chapters and building the scientific skills needed for success in upper-level courses. New Make Connections Figures pull together content from different chapters visually helping students see big picture relationships. New Scientific Skills Exercises in every chapter use real data to build key skills needed for biology including data analysis, graphing, experimental design and math skills. New examples show students how our ability to sequence DNA and proteins rapidly and inexpensively is transforming every subfield of biology. Mastering brings learning full circle and is the most effective and widely used online homework tutorial and assessment system for the sciences. Over three million science students are currently using Mastering for the following features: Before class reading quizzes, pre-lecture quizzes and formative assessments test students' knowledge of the material and ensure they come to class prepared. During class Learning Catalytics and existing Mastering media like simulations, Flix Videos etc keep your students engaged and bring tough topics to life. After class traditional homework quizzes and testing automatically assess your students' comprehension of the material and provide opportunities for remediation.
