The Learner-Centered Curriculum Roxanne Cullen, Michael Harris, Reinhold R. Hill, 2012-03-20 THE LEARNER CENTERED CURRICULUM If an institution is to be truly learner centered all processes and practices need to be learner centered and the curriculum is no exception From the Preface The Learner Centered Curriculum is for educators and administrators who envision an educational environment that produces students who are creative and autonomous learners By encouraging an appreciation and adoption of learner centered practices educators can transform their curricula to become more focused on the learner The book presents a framework for curriculum design based on learner centered principles while at the same time offering technical advice on implementation as well as the strategic use of assessment technology and physical spaces to support innovative design The authors include several examples of existing curricula that illustrate their framework in practice Throughout the book they emphasize the need for assessment both formative and

summative stressing the point that assessment is an effective driver of change The book includes a wide variety of options both for individual classroom practice and for programmatic assessment The Learner Centered Curriculum explores the current technology and tools available to educators that can support learner centered practices and foster autonomous learning and demonstrates how technology can assist in removing some of the obstacles to achieving a learner centered design In addition the authors explain the importance of physical spaces in relation to learner centered curricular design and show how to tie renovation to curricular implementation to foster incentive to innovate and provide a physical manifestation of learner centered principles
