Mastering McKim's Plan Columbia's First Century On Morningside Heights:

Mastering McKim's Plan Barry Bergdoll, Hollee Haswell, Janet Parks, Low Memorial Library, McKim, Mead & White, 1997 This volume charts the architectural trajectory of Columbia University in New York City and celebrates the centennial of architect Charles Follen McKim's enduring vision of a spatially unified architecturally integrated urban university *Columbia University and Morningside Heights* Michael V. Susi, 2007 Outgrowing its remarkably shortlived location in midtown Manhattan Columbia College moved uptown in the mid-1890s not only transforming itself into an urban university under university president Seth Low but also creating an urban campus guided by Charles McKim William Rutherford Mead and Stanford White's master plan The university became a major constituent of what would be described as New York's Acropolis on Morningside Heights It was preceded in this endeavor by the Cathedral Church of St John the Divine and St Luke's Hospital and it was soon joined by Barnard College Teachers College and Union Theological Seminary among others The arrival of the Interborough Rapid Transit Subway in 1904 spurred residential and retail development

Morningside Heights Andrew S. Dolkart, 2001-03-15 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of the events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan's surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles **University Planning and Architecture** Jonathan Coulson, Paul Roberts, Isabelle

Taylor, 2015-01-09 The environment of a university what we term a campus is a place with special resonance They have long been the setting for some of history's most exciting experiments in the design of the built environment Christopher Wren at Cambridge Le Corbusier at Harvard and Norman Foster at the Free University Berlin the calibre of practitioners who have shaped the physical realm of academia is superlative Pioneering architecture and innovative planning make for vivid assertions of academic excellence while the physical estate of a university can shape the learning experiences and lasting outlook of its community of students faculty and staff However the mounting list of pressures economic social pedagogical technological currently facing higher education institutions is rendering it increasingly challenging to perpetuate the rich legacy of campus design In this strained context it is more important than ever that effective use is made of these environments and that future development is guided in a manner that will answer to posterity This book is the definitive

compendium of the prestigious sphere of campus design envisaged as a tool to help institutional leaders and designers to engage their campus's full potential by revealing the narratives of the world's most successful time honoured and memorable university estates. It charts the worldwide evolution of university design from the Middle Ages to the present day uncovering the key episodes and themes that have conditioned the field and through a series of case studies profiles universally acclaimed campuses that through their planning architecture and landscaping have made original influential and striking contributions to the field. By understanding this history present and future generations can distil important lessons for the future. The second edition includes revised text many new images and new case studies of the Central University of Venezuela and Indian Institute of Management Ahmedabad. *Triumvirate: McKim, Mead & White* Mosette Broderick, 2010-10-26 A rich fascinating saga of the most influential far reaching architectural firm of their time and of the dazzling triumvirate Charles McKim William Mead and Stanford White who came together bound by the notion that architecture could help shape a nation in transition. They helped to refine America's idea of beauty elevated its architectural practice and set the standard on the world's stage. Their world and times were those of Edith Wharton and Henry James though both writers and their society shunned the architects as being much too much about new money. They brought together the titans of their age with a vibrant and new American artistic community and helped to forge the arts of America's Gilded Age informed by the heritage of European culture. McKim Mead about money and power about the education of an unsophisticated young country and about the coming of artists as an accepted class in American society. Broderick a renowned architectural and social historian brilliantly weaves together the strands of biography architecture and history to tell the story of the houses and buildings Charles McKim William Mead and Stanford White designed. She writes of the firm's clients many of whom were establishing their names and places in upper class society as they built and grabbed railroads headed law firms and brokerage houses owned newspapers developed iron empires and carved out a new direction for America's modern age. *Toward a More Perfect University* Jonathan R Cole, 2016-01-26 A renowned academic leader identifies the ways America's great universities should evolve in the decades ahead to maintain their global preeminence and enhance their intellectual stature and social mission as higher education confronts the twenty first century developments in technology humanities culture and economics. Jonathan R Cole former provost and current University Professor at Columbia University addresses some of the biggest challenges facing the modern American university developing effective admission policies creating the most meaningful examinations dealing with rising costs making undergraduate education central to the university's mission exploring the role of the humanities facilitating new discoveries and innovation determining the place for professional schools developing the research campuses of the future assessing the role of sports designing leadership and governance and combating intellectual and legal threats to academic freedom. **Stand, Columbia : a History of Columbia University in the City of New York, 1754-2004** Robert A. Update *Knowledge Worlds* Reinhold Martin, 2021-03-16 What do the technical practices procedures and systems that have shaped institutions of higher learning in the United States from the Ivy League and women's colleges to historically black colleges and land grant universities teach us about the production and distribution of knowledge Addressing media theory architectural history and the history of academia *Knowledge Worlds* reconceives the university as a media complex comprising a network of infrastructures and operations through which knowledge is made conveyed and withheld Reinhold Martin argues that the material infrastructures of the modern university the architecture of academic buildings the configuration of seminar tables the organization of campus plans reveal the ways in which knowledge is created and reproduced in different kinds of institutions He reconstructs changes in aesthetic strategies pedagogical techniques and political economy to show how the boundaries that govern higher education have shifted over the past two centuries From colleges chartered as rights bearing corporations to research universities conceived as knowledge factories educating some has always depended upon excluding others *Knowledge Worlds* shows how the division of intellectual labor was redrawn as new students entered expertise circulated science repurposed old myths and humanists cultivated new forms of social and intellectual capital Combining histories of architecture technology knowledge and institutions into a critical media history Martin traces the uneven movement in the academy from liberal to neoliberal reason New York City Robert Kahn, 2002 Novelists artists architects curators film makers historians and gourmets reveal their favourite discoveries in the ultimate insider's guide to New York City Becoming Penn John L. Puckett, Mark Frazier Lloyd, 2015-03-26 The second half of the twentieth century saw the University of Pennsylvania grow in size as well as in stature On its way to becoming one of the world's most celebrated research universities Penn exemplified the role of urban renewal in the postwar redevelopment and expansion of urban universities and the indispensable part these institutions played in the remaking of American cities Yet urban renewal is only one aspect of this history Drawing from Philadelphia's extensive archives as well as the University's own historical records and publications John L. Puckett and Mark Frazier Lloyd examine Penn's rise to eminence amid the social moral and economic forces that transformed major public and private institutions across the nation *Becoming Penn* recounts the shared history of university politics and urban policy as the campus grappled with twentieth century racial tensions gender inequality labor conflicts and economic retrenchment Examining key policies and initiatives of the administrations led by presidents Gaylord Harnwell Martin Meyerson Sheldon Hackney and Judith Rodin Puckett and Lloyd revisit the actors organizations and controversies that shaped campus life in this turbulent era Illustrated with archival photographs of the campus and West Philadelphia neighborhood throughout the late twentieth century *Becoming Penn* provides a sweeping portrait of one university's growth and impact within the broader social history of American higher education **Revolt and Reform in Architecture's Academy** William Richards, 2016-12-01 *Revolt and Reform in Architecture's Academy* uniquely addresses the complicated relationship between architectural education and urban renewal

in the 1960s which paved the way for what is today known as public interest design Through an examination of curricular reforms at Columbia University's and Yale University's schools of architecture in the 1960s this book translates the urban crisis through the experiences of two influential groups of architecture students as well as their contributions to design's lexicon The book argues that urban renewal and campus expansion half a century ago recast architectural education at two schools whose host cities New York and New Haven were critical sites for political social and urban upheaval in America The urban challenges of that time are the same challenges rapidly growing cities face today access equity housing and services As architects architects in training and architecture students continue to wrestle with questions surrounding how design may serve a broadly defined public interest this book is a timely assessment of the forces that have shaped the debate

Growing Up Abolitionist Harriet Hyman Alonso, 2002 William Lloyd Garrison was one of the major abolitionist leaders well known for his operation of the newspaper *The Liberator* When he died in 1879 his five children carried on his and his wife's values in the civil rights peace and woman suffrage movements argues Alonso history City U of New York She draws a portrait of the activities of the five including editing *The Nation* being involved in the women's colleges Barnard and Radcliffe campaigning for the single tax working in antiwar movements and working on ensuring their father's place in history Equal attention is paid to the youth and education of the children Annotation copyrighted by Book News Inc Portland OR A *Lever Long Enough* Robert McCaughey, 2014-06-10 In this comprehensive social history of Columbia University's School of Engineering and Applied Science SEAS Robert McCaughey combines archival research with oral testimony and contemporary interviews to build both a critical and celebratory portrait of one of the oldest engineering schools in the United States McCaughey follows the evolving occasionally rocky and now integrated relationship between SEAS's engineers and the rest of the Columbia University student body faculty and administration He also revisits the interaction between the SEAS staff and the inhabitants and institutions of the City of New York where the school has resided since its founding in 1864 He compares the historical struggles and achievements of the school's engineers with their present day battles and accomplishments and he contrasts their teaching and research approaches to those of their peers at other free standing and Ivy league engineering schools What begins as a localized history of a school striving to define itself within a university known for its strengths in the humanities and the social sciences becomes a wider story of the transformation of the applied sciences into a critical component of American technology and education **The Journey of Utopia** Pablo Campos Calvo-Sotelo, 2006 In 1927 a group of advisors of King Alfonso XIII of Spain set off a journey to the United States Their aim was to study the American University as a model for the design of the new University City in Madrid Using the reconstruction of this cultural event as a guiding thread metaphor the purpose of the Research Project is to study the roots and historical transformations that the University Space has experimented since its origins under the impulse of Utopia making special emphasis in its relation to the City It will focus on the evolution of essential architectural models beginning from its medieval

germ in Europe the exodus of the seed of its embodied soul the quadrangle to the New World the birth and diversification of the new model campus and finally in the early twentieth century the return trip to Europe of the modern idea and the prolific heritage that it has generated in the contemporary University since then from the point of view of the cultural connection between the United States and Europe

The Dunning School John David Smith, J. Vincent Lowery, 2013-10-14 From the late nineteenth century until World War I a group of Columbia University students gathered under the mentorship of the renowned historian William Archibald Dunning 1857-1922 Known as the Dunning School these students wrote the first generation of state studies on the Reconstruction volumes that generally sympathized with white southerners interpreted radical Reconstruction as a mean spirited usurpation of federal power and cast the Republican Party as a coalition of carpetbaggers freedmen scalawags and former Unionists Edited by the award winning historian John David Smith and J. Vincent Lowery The Dunning School focuses on this controversial group of historians and its scholarly output Despite their methodological limitations and racial bias the Dunning historians' writings prefigured the sources and questions that later historians of the Reconstruction would utilize and address Many of their pioneering dissertations remain important to ongoing debates on the broad meaning of the Civil War and Reconstruction and the evolution of American historical scholarship This groundbreaking collection of original essays offers a fair and critical assessment of the Dunning School that focuses on the group's purpose the strengths and weaknesses of its constituents and its legacy Squaring the past with the present this important book also explores the evolution of historical interpretations over time and illuminates the ways in which contemporary political racial and social questions shape historical analyses

An Architecture of Education Angel David Nieves, 2018 Examines material culture and the act of institution creation especially through architecture and landscape to recount a deeper history of the lives of African American women in the post Civil War South

Adolf Loos Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos' masterful astyle architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck's Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect
