Monastic Bodies Caroline T. Schroeder, 2013-03-01 Shenoute of Atripe led the White Monastery a community of several thousand male and female Coptic monks in Upper Egypt between approximately 395 and 465 C E Shenoute's letters sermons and treatises one of the most detailed bodies of writing to survive from any early monastery provide an unparalleled resource for the study of early Christian monasticism and asceticism In *Monastic Bodies* Caroline Schroeder offers an in depth examination of the asceticism practiced at the White Monastery using diverse sources including monastic rules theological treatises sermons and material culture Schroeder details Shenoute's arduous disciplinary code and philosophical structure including the belief that individual sin corrupted not only the individual body but the entire corporate body of the community Thus the purity of the community ultimately depended upon the integrity of each individual monk Shenoute's ascetic discourse focused on purity of the body but he categorized as impure not only activities such as sex but any disobedience and other more general transgressions Shenoute emphasized the important practices of discipline or askesis in achieving this purity Contextualizing Shenoute within the wider debates about asceticism sexuality and heresy that characterized late antiquity Schroeder compares his views on bodily discipline monastic punishments the resurrection of the body the incarnation of Christ and monastic authority with those of figures such as Cyril of Alexandria Paulinus of Nola and Pachomius

Reforming the Monastery Greg Peters, 2013-11-12 Richard Froude wrote in 1833 to John Henry Newman that the present state of things in England makes an opening for reviving the monastic system Seemingly original words at the time Yet monasticism is one of the most ancient and enduring institutions of the Christian church reaching its zenith during the High Middle Ages Although medieval monasteries were regularly suppressed during the Reformation and the magisterial Reformers rejected monastic vows the existence of monasticism has remained within the Reformation churches both as an institution and in its theology This volume is an examination of Protestant theologies of monasticism examining the thought of select Protestant authors who have argued for the existence of monasticism in the Reformation churches beginning with Martin Luther and John Calvin and including Conrad Hoyer John Henry Newman Karl Barth and Donald Bloesch Looking at the contemporary church the current movement known as the New Monasticism is discussed and evaluated in light of Protestant monastic history

Monastery Without Walls Bruce L. Davis, PhD, 2001-06-21 There is a part of each of us that is a monk or a mystic We yearn for perfect peace yet live our lives far removed from traditional monasteries yet most of us would not want to give up our personal and spiritual freedom to join monastic life We seek wholeness but realize that wholeness is not possible without sacredness Sacred life takes root in solitude in the time we take to develop a relationship with our inner life in the kind of setting a monastery would offer This book speaks to the monk or

mystic within us It affirms our place in the sacred silence of solitude and inner reflection showing how even everyday life is filled with opportunities to live fully in the world as if it were a holy monastery Here we learn to live within the limits as well as the spirit of everyday life how to appreciate our most human self as the path to explore the divine Here we encounter a world that is clearly available to us a world filled with nothing less than the gift of sacred silence within the monastery without walls

journey home that you have ever taken **Western Monastic Spirituality** Roger Haight, Alfred Pach, Amanda Avila Kaminski, 2022-06-07 Western Monastic Spirituality presents three authors as individuals certainly but also as textual informants who like road markers represent a line of the development of a Western monastic spiritual tradition John Cassian ca 360 435 helped bring the wisdom of northern Egyptian ascetical life of the late fourth century to southern France in the early fifth century Caesarius of Arles 468 470 542 drawing on his own monastic experience and Augustine's monastic rule composed a rule for a women's monastery in the city of Arles Not many years later Benedict wrote the most influential rule in Western monasticism one that still regulates the lives of monks today all over the world These three texts when looked at serially and together offer a theology of monastic spirituality an example of a relatively short but comprehensive early monastic rule and a present day Benedictine interpretation of how Benedict's monastic spirituality can be summed up in a short present day digest of his rule Reflection on early Western monasticism retrieves some basic Christian spiritual values that should inform life today outside the monastery in a busy secular culture *A Global History of Christians* Paul R. Spickard, Kevin M. Cragg, 2001-02 Surveys the progression of the Christian experience within historical social economic and cultural contexts **Living in Utopia** Lucy Sargisson, Lyman Tower Sargent, 2017-03-02 Utopia is literally the good place that is no place Utopias reveal people's dreams and desires and they may gesture towards different and better ways of being But they are rarely considered as physical observable phenomena In this book Sargisson and Sargent both established writers on utopian theory turn their attention to real life utopian communities The book is based on their fieldwork and extensive archival research in New Zealand a country with a special place in the history of utopianism A land of opportunity for settlers with dreams of a better life New Zealand has per capita more intentional communities groups of people who have chosen to live and sometimes work together for a common purpose than any country in the world Sargisson and Sargent draw on the experiences of more than fifty such communities to offer the first academic survey of this form of living utopian experiment In telling the story of the New Zealand experience Living in Utopia provides both transferable lessons in community cooperation and social change and a unique insight into the utopianism at the heart of politics society and everyday life
