and young people This radical children s literature was designed to ignite and underpin the work of making a new Britain for a new kind of Briton While there are many dedicated studies of children s literature and childrens writers working in other periods the years 1910 1949 have previous received little critical attention In this study Kimberley Reynolds shows that the accepted characterisation of inter war children s literature as retreatist anti modernist and apolitical is too sweeping and that the relationship between children s literature and modernism left wing politics and progressive education has been neglected
