

A Healthy Mind Reader

The brain is the most amazing part of our body and despite all medical research nobody really understands about it. But just like our bodies, it needs to be cared for in ways that can be quite simple. Getting a good night's sleep, eating a balanced diet and taking deep breaths are all important methods of looking after both your body and your brain.

Many people think their brain will slow down with age and their memory will get worse as a result. The truth is, just like your body, you can also improve your mind. I've found I can improve my memory by imaging what I need to remember. For example, if I'm going shopping and I need bread, milk and a birthday card for brother, I imagine a loaf bread, a carton of milk with a cow on the front and a birthday card with a football on it.

The same kind of method can be used with important dates. If you have a picture in your mind of a particular event it's much easier to remember than just a number on a calendar.

Another way of improving your mind is to make sure you regularly visit new places and have new experiences. Personally I find learning Spanish is a great way to keep the brain working, but communication in any language is important. Having a conversation is so much better for your brain than staring at a computer screen or at other people talking on TV.

The Poetics of Visuality Justin J. White, 2024-11-14 Justin J. White explores the nature of images in ancient Israel through a reconceptualization of the relationship between image and text He proposes that in ancient Israel texts evoked images as a core part of their rhetoric Rather than conceptualizing texts and images as ontologically or functionally distinct media he argues that both media are mixed media even while neither medium is reducible to the other In order to make this argument he focuses on the visual aspects of textual rhetoric what he terms the poetics of visuality He builds his argument across three text specific axes of visual rhetoric ekphrasis the visual imagination and material agency He makes the claim that each of these three axes are endemic to Israelite literature and mutually contribute to the formation of a robust ontology of visual representation in ancient Israel

LeMon,2015-02-26 Images from the ancient Near East are an important though generally underutilized source of data for interpreting the Hebrew Bible and the cultural context from which it emerged The essays in this volume highlight the ways that ancient Near Eastern iconography can inform exegesis This aim is accomplished through case studies in iconographic exegesis that exhibit sound methodologies for relating images and texts Since the 1970s biblical scholars have been turning increasingly to iconography as a source for understanding the religion history and literature of the ancient Near East The essays in this volume tackle two thorny issues 1 how images reflect the cultures that produce them and 2 the nature of the relationship between images and texts both within discrete cultures and among different cultures Until now there have been relatively few methodologically self conscious treatments of ancient iconography and its relationship to the biblical text So this volume addresses a clear need for demonstrating transparent and consistent methods for iconographic work among biblical scholars Reading by Design Pauline Reid,2019-04-08 Renaissance readers perceived the print book as both a thing and a medium a thing that could be broken or reassembled and a visual medium that had the power to reflect transform or deceive At the same historical moment that print books remediated the visual and material structures of manuscript and oral rhetoric the relationship between vision and perception was fundamentally called into question Investigating this crisis of perception Pauline Reid argues that the visual crisis that suffuses early modern English thought also imbricates sixteenth and seventeenth century print materials These vision troubles in turn influenced how early modern books and readers interacted Platonic Aristotelian and empirical models of sight vied with one another in a culture where vision had a tenuous relationship to external reality Through situating early modern books design elements such as woodcuts engravings page borders and layouts as important rhetorical components of the text *Reading by Design* articulates how the early modern book responded to epistemological crises of perception and competing theories of sight
