1843 shortly after the author's death a Supplement of new words which was prepared by his own hand and which has accordingly been examined with the same object By comparing this edition with that of 1859 edited by Dr Goodrich the changes of pronunciation introduced by the latter have been determined They were made according to the statement of Dr Goodrich in reply to a letter addressed to him on the subject in conformity with Dr Webster's known principles and in consultation with his son Mr William G Webster who had been associated with him in his literary labors We supposed ourselves says Dr Goodrich to be well acquainted with the principles on which he would have wished such a revision to be conducted It is matter of mere conjecture how far he might have been satisfied with each individual alteration I am not certain he would have rejected any of them I am sure he would have embraced nearly all had he lived to understand the progress of the public mind as we have endeavored to do in his behalf A dictionary from the nature of the case is a progressive thing As the language is in a state of slow but continual progress the volume that records it must from time to time undergo corresponding changes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [A Manual of English Pronunciation and Spelling: Richard Soule, 1877](#)
