Reading Like a Writer Francine Prose, 2006-08-22 Long before there were creative writing workshops and degrees how did aspiring writers learn to write By reading the work of their predecessors and contemporaries says Francine Prose In Reading Like a Writer Prose invites you to sit by her side and take a guided tour of the tools and the tricks of the masters She reads the work of the very best writers Dostoyevsky Flaubert Kafka Austen Dickens Woolf Chekhov and discovers why their work has endured She takes pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel she is deeply moved by the brilliant characterization in George Eliot's Middlemarch She looks to John Le Carr for a lesson in how to advance plot through dialogue to Flannery O'Connor for the cunning use of the telling detail and to James Joyce and Katherine Mansfield for clever examples of how to employ gesture to create character She cautions readers to slow down and pay attention to words the raw material out of which literature is crafted Written with passion humor and wisdom Reading Like a Writer will inspire readers to return to literature with a fresh eye and an eager heart

Writers Reading Writers Robert Hollander, 2007 This volume is a collection of intertextual studies on medieval and early modern literature in honor of Robert Hollander by some of his former students Writers are always also readers responding to texts that have provoked their thought The contributors to this volume all participate in its overarching theme writers reading and responding to the work of other writers As Hollander's work has focused especially on Dante and Boccaccio many of the essays treat one of these writers either as reading or as read by others Other essays trace intertextual influences in Langland Shakespeare or post-Enlightenment writers faced with the loss of Dante's meaningful cosmos

Emerging Barclay Barrios, 2015-11-13 Emerging uses an inquiry based approach and engaging readings to help students understand and write about a variety of

academic texts Based on reviewer feedback the third edition uses its assignment sequences to pose questions about the important but unsettled issues that shape students lives such as How is technology changing us and How can you make a difference in the world Thought provoking contemporary readings help them address those questions in a meaningful way At its core Emerging focuses on the skills necessary for academic writing in any discipline and a thoroughly revised Part One offers concrete strategies for improving those skills reading critically synthesizing arguing using evidence and revising Twenty vibrant new readings keep Emerging in tune with the newest ideas that will challenge students to think beyond their own experiences and beyond the classroom *Readings for Writers* Jo Ray McCuen-Metherell,2018 **When Writers**

Read Jane Hansen,2001 When writers read they evaluate all the time They can t help it But they can become better at it and that s what this second edition of When Writers Read is about what students can do to become better evaluators of themselves as writers and readers and how you can help Extensively revised the second edition is organized around five concepts that are central to an effective writing reading program Voices When writers read they listen for a strong author voice they know they can hear their own when they write and assume other authors voices come through as well It s essential that all voices both those of students and professional writers be honored and supported by an evaluation system dedicated to this notion Decisions When writers read they make decisions so it s only natural that they look for evidence of the decisions other authors make To become effective writers and readers students must learn to make decisions about which types of writing to create what to write and read about where to work when to do so whom to share their work with and what to do to become better writers and readers Time When writers read they read and read and read One of your primary responsibilities as their teacher is to provide plenty of opportunities for them to do so and create an overall framework in which students spend their time wisely Response When writers read they look for a message Students need to understand that to respond effectively to other writers they should listen closely and think appreciatively and critically about the author Self discipline When writers read it s their self discipline that keeps them engaged By providing plenty of good books writing possibilities and self evaluation opportunities you can help ensure your students are self disciplined and eager
