Reading In Early Anthropology:

Readings in Early Anthropology, 1965 **Memoirs read before the Anthropological Society of London**
Anthropological Society (London), 1865 *Memoirs read before the Anthropological Society of London* Anthropological Society of London, 1865 **Science Education during Early Childhood** Wolff-Michael Roth, Maria Ines Mafrá Goulart, Katerina Plakitsi, 2012-10-12 Children's learning and understanding of science during their pre school years has been a neglected topic in the education literature something this volume aims to redress Paradigmatic notions of science education with their focus on biologically governed development and age specific accession to scientific concepts have perpetuated this state of affairs This book offers a very different perspective however It has its roots in the work of cultural historical activity theorists who since Vygotsky have assumed that any higher cognitive function existed in and as a social relation first Accepting this precept removes any lower limit we may deem appropriate on children's cognitive engagement with science related concepts The authors describe and analyze the ways in which children aged from one to five grapple with scientific concepts and also suggest ways in which pre service and in service teachers can be prepared to teach in ways that support children's development in cultural and historical contexts In doing so the book affirms the value of cultural historical activity theory as an appropriate framework for analyzing preschool children's participation in science learning experiences and shows that that the theory provides an appropriate framework for understanding learning as well as for planning and conducting training for pre school teachers **The Early Foucault** Stuart Elden, 2021-05-20 It was not until 1961 that Foucault published his first major book *History of Madness* He had already been working as an academic for a decade teaching in Lille and Paris writing organizing cultural programmes and lecturing in Uppsala Warsaw and Hamburg Although he published little in this period Foucault wrote much more some of which has been preserved and only recently become available to researchers Drawing on archives in France Germany Switzerland Sweden and the USA this is the most detailed study yet of Foucault's early career It recounts his debt to teachers including Louis Althusser Jean Hyppolite Maurice Merleau Ponty and Jean Wahl his diploma thesis on Hegel and his early teaching career It explores his initial encounters with Georges Canguilhem Jacques Lacan and Georges Duménil and analyses his sustained reading of Friedrich Nietzsche Edmund Husserl and Martin Heidegger Also included are detailed discussions of his translations of Ludwig Binswanger Victor von Weizsäcker and Immanuel Kant his clinical work with Georges and Jacqueline Verdeaux and his cultural work outside of France Investigating how Foucault came to write *History of Madness* Stuart Elden shows this great thinker's deep engagement with phenomenology anthropology and psychology An outstanding meticulous work of intellectual history The *Early Foucault* sheds new light on the formation of a major twentieth century figure [Anthropological Approaches to Reading Migrant Writing](#) Deborah Reed-Danahay, Helena Wulff, 2023-10-24 This book brings fresh perspectives to the anthropology of migration It focuses on what migrants write and how anthropologists may incorporate

insights gained from engagement with this writing into research methods and writing practices The volume includes a range of contributions from leading scholars in the field all organized around a striking set of questions about the conditions in which migrant narratives are written and translated the audiences for which they are intended the genres and media through which they are disseminated and what such stories include or leave out The contributors to this volume demonstrate an innovative shift in anthropological methods by showing how fiction and nonfiction graphic memoir and autoethnography song lyrics as well as social media posts and images unsettle the power dynamics in the study of migration narrative This book will serve as important supplemental reading for courses on migration literary anthropology ethnographic methods and sociocultural anthropology in general Its interdisciplinary perspective will appeal to a broad range of scholars and students with interests in migration narrative and anthropological writing genres **First-Person Methods** Wolff-Michael

Roth,2012-07-30 In the history of psychology rst person methods such as introspection have come into disrepute in favor of the experimental approach Yet the results of rst person research such as the famous studies provided by Maurice Merleau Ponty in his Phenomenology of Perception have indeed produced knowledge subsequently ascertained by neuroscienti c research The purpose of this book is to assist readers in developing rst person methods as a rigorous approach It is designed to assist researchers in the eld of education to develop their competencies in the rst person approach Concrete examples descriptions precepts and possible ndings are provided to guide readers in their inquiries Surrounding the inquiries re ective commentaries assist readers to become re exively aware of what they are doing and thereby come to bring into discourse the methods they have used That is readers are assisted in developing research praxis by experiencing rst person methods rst hand and then to become re exively aware of the method as method *Literacy in the Early Years* Claire J.

Reading Popol Wuj Nathan C. Henne, 2020-04-14 Popol Wuj is considered one of the oldest books in the Americas Various elements of Popol Wuj have appeared in different written forms over the last two millennia and several parts of Popol Wuj likely coalesced in hieroglyphic book form a few centuries before contact with Europeans Popol Wuj offers a unique interpretation of the Maya world and ways of being from a Maya perspective However that perspective is often occluded since the extant Popol Wuj is likely a copy of a copy of a precontact Indigenous text that has been translated many times since the fifteenth century Reading Popol Wuj offers readers a path to look beyond Western constructions of literature to engage with this text through the philosophical foundation of Maya thought and culture This guide deconstructs various translations to ask readers to break out of the colonial mold in approaching this seminal Maya text Popol Wuj or Popol Vuh in its modern form can be divided thematically into three parts cosmogony the formation of the world tales of the beings who inhabited the Earth before the coming of people and chronicles of different ethnic Maya groups in the Guatemala area Examining thirteen translations of the K'iche' text Henne offers a decolonial framework to read between what translations offer via specific practice exercises for reading studying and teaching Each chapter provides a close reading and analysis of a different critical scene based on a comparison of several translations English and Spanish of a key K'iche' word or phrase in order to uncover important philosophical elements of Maya worldviews that resist precise expression in Indo-European languages Charts and passages are frontloaded in each chapter so the reader engages in the comparative process before reading any leading arguments This approach challenges traditional Western reading practices and enables scholars and students to read Popol Wuj and other Indigenous texts from within the worldview that created them
