Improving Adult Literacy Instruction National Research Council, 2012-08-27 More than an estimated 90 million adults in the United States lack the literacy skills needed for fully productive and secure lives The effects of this shortfall are many Adults with low literacy have lower rates of participation in the labor force and lower earnings when they do have jobs for example They are less able to understand and use health information And they are less likely to read to their children which may slow their children s own literacy development At the request of the U S Department of Education the National Research Council convened a committee of experts from many disciplines to synthesize research on literacy and learning in order to improve instruction for those served in adult education in the U S The committee s report Improving Adult Literacy Instruction Options for Practice and Research recommends a program of research and innovation to gain a better understanding of adult literacy learners improve instruction and create the supports adults need for learning and achievement Improving Adult Literacy Instruction Developing Reading and Writing which is based on the report presents an overview of what is known about how literacy develops the component skills of reading and writing and the practices that are effective for developing them It also describes principles of reading and writing instruction that can guide those who design and administer programs or courses to improve adult literacy skills Although this is not intended as a how to manual for instructors teachers may also find the information presented here to be helpful as they plan and deliver instruction

Applying Research in Reading Instruction for Adults Susan McShane, 2013-01-27 Reading is the most basic of skills Reading provides access to other skills and knowledge facilitates life long learning and opens doors to opportunity The National Institute for Literacy is authorized by the U S Congress to collect and disseminate information on the components of reading and the findings from scientific research The National Center for Family Literacy fully endorses the national emphasis on reading and the efforts to promote scientifically based reading instruction for children and adults We offer this resource for adult education teachers who want to build and strengthen adults reading skills We hope that adult education instructors in family literacy Adult Basic Education and other basic skills programs will find it useful We know that large numbers of adult learners need to improve their reading skills And yet many instructors in adult education programs do

not teach reading explicitly for several reasons. The assessments used in most programs don't reveal the complexities of adults' reading needs. Teachers often have only fragmentary knowledge about reading instruction. Many have not had specific preparation in this area. Most classes include adults with extremely varied skills, making specifically targeted individualized instruction difficult if not impossible. Teachers are challenged to find ways to incorporate reading instruction into their regular classroom schedules, routines, and lessons. This book was written with these realities in mind. It aims first to build background knowledge about reading and scientifically based reading instruction. The language and format are teacher friendly, using student and classroom illustrations and sample instructional activities to make research principles concrete for readers. The focus in applying the research is on modeling thinking, planning, and problem solving in the context of fictional adult education settings. The student and class profiles in these illustrations are based on actual assessment data from adult literacy research studies, a reminder to readers of this book that it is a practical resource for use with real adult learners. We titled this book *First Steps* because we know that no single resource can provide all the answers everything that's required to change practice. But we believe this is a valuable resource for a teacher's professional development journey. By building a basic understanding of research-based reading instruction and offering suggestions for starting off in the right direction, we hope to whet teachers' appetites for further learning. As teachers and programs become more capable of applying research-based principles for reading assessment and instruction, the real winners should be adult learners and their families. Improved literacy skills may allow these adults to take giant steps in the journey of lifelong learning. We are privileged to play a part in this important effort.

Tracking Adult Literacy and Numeracy Skills Stephen Reder, John Bynner, 2008-09-16 Poor literacy and numeracy skills of adults remain substantial problems in today's societies. This volume examines this issue through an analysis of adult education programs and their impact on basic skills development. The contributors offer far-reaching conclusions about what works and for what reasons in addressing adult literacy and numeracy.
