Reading The Latter Prophets Towards A New Canonical Criticism:

Reading the Latter Prophets Edgar W. Conrad, 2004-04-01 Edgar W Conrad focuses on the prophetic books as composite collections and shows that 1 prophets are characters in the text depicted as figures of the past whose words are significant for a later time 2 reading and writing play a central role in the depiction of prophets 3 prophetic books are presented as written words available to later generations through reading 4 that read as a whole the latter prophets depict the end of prophecy and the emergence of messengers of the Lord Reading the Latter Prophets is an important contribution to the problems of both the formation and function of the prophetic literature Reconsidering the Date and Provenance of the Book of Hosea James M. Bos, 2013-04-11 This study argues that the book of Hosea ought to be understood and read as a text that was composed in Persian period Yehud rather than in eighth century Israel The author challenges the traditional scholarship and emphasizes that there is the evidence to suggest that the book should be viewed as a Judahite text a book that was composed in the late sixth or early fifth century B C E Bos provides an overview of the state of prophetic research as well as a discussion of genre and the generation of prophetic books linguistic dating and provenance and a survey of Hosea research Bos discusses various aspects of the book of Hosea that aim to prove his argument the book was composed in Persian period Yehud the anti monarchical ideology of the book the dual theme of Exile and Return which is consistent with the discourse found in other Judahite books dating to the sixth century and the historiographical traditions **Hearing the Old Testament** Craig G. Nogalski, Jakob Wöhrle, 2012-07-04 The formation of the Book of the Twelve is one of the most vigorously debated subjects in Old Testament studies today This volume assembles twenty four essays by the world's leading experts providing an overview of the present state of scholarship in the field The book's contributors focus on questions of method history as well as redactional and textual history Why Did They Write This Way? Katherine M. Stott, 2008-05-15 This book examines the character and function of the documents mentioned in the biblical texts in relation to comparable references in literature from wider antiquity The primary focus is to understand these references within their literary context asking why indeed they are mentioned at all and what purpose they serve in the narrative The Theology of the Land in Amos 7-9

Robert Khua Hnin Thang, 2014-10-14 In the book of Amos the language about land is used extensively including terms and ideas such as Zion YHWH's bringing of Israel into the land references to various sanctuaries and places harvest and famine the relationship between the northern kingdom and Judah and references to the land of other nations However this subject of the land has never been studied as a theological topic in its own right but only as part of other themes This work follows a synchronic reading of Amos and employing textual literary and historical criticism the author carries out a careful theological analysis of the land Although the findings are set in the context of the entire book of Amos the study focuses on chapters 7-9 to explore the topic with closer detail

A Guide to Biblical Commentaries and Reference Works John F. Evans, 2016-05-03 A Guide to Biblical Commentaries and Reference Works by John F. Evans summarizes and briefly analyzes all recent and many older commentaries on each book of the Bible giving insightful comments on the approach of each commentary and its interpretive usefulness especially for evangelical interpreters of the Bible A Guide to Biblical Commentaries and Reference Works is essentially an annotated bibliography of hundreds of commentators More scholarly books receive a longer more detailed treatment than do lay commentaries and highly recommended commentaries have their author's names in bold The author keeps up on the publication of commentaries and intends to update this book every three to four years

Reconsidering the Book of the Four Nicholas R. Werrse, 2019-05-20 Although many scholars recognize literary similarities between Hosea Amos Micah and Zephaniah defining the compositional relationship between these texts remains a matter of debate Following the scholarly trajectory of exploring the compositional relationship between the Twelve prophets several scholars argue that these four prophetic texts formed a precursory collection to the Book of the Twelve Yet even among advocates for this Book of the Four there remain differences in defining the form and function of the collection By reexamining the literary parallels between these texts Werrse shows how different methodological convictions have led to the diverse composition models in the field today Through careful consideration of emerging insights in the study of deuteronomism and scribalism Werrse provides an innovative composition model explaining how these four texts came to function as a collection in the wake of the traumatic destruction of Jerusalem This volume explores a historic function of these prophetic voices by examining the editorial process that drew them together
