**Establishing Creative Writing Studies as an Academic Discipline** Dianne Donnelly, 2011-11-23 This book advances creative writing studies as a developing field of inquiry, scholarship, and research. It discusses the practice of creative writing studies, the establishment of a body of professional knowledge, and the goals and future direction of the discipline within the academy. This book also traces the development of creative writing studies, noting that as the new discipline matures, as it refers to evidence of its own research methodology and collective data, and locates its authority in its own scholarship, creative writing studies will bring even more meaning to the academy, its profession, and its student body.      **A Writer's Reference with Writing in the Disciplines** Diana Hacker, Nancy Sommers, 2011-04-08 With *Writing in the Disciplines* Cover      *The Cumulative Book Index* , 1998 A world list of books in the English language      The Harcourt Brace Guide to Writing in the Disciplines Robert Wayne Jones, Patrick Bizzaro, Cynthia L. A veritable who's who of specialists in the field, chapter authors cover current methodology as well as cumulative research-based knowledge. Because it deals with society and literacy, the first section provides the broadest possible view of literacy. The second section defines the range of activities culturally determined to be a part of the enterprise known as literacy. The third focuses on the processes that individuals engage in when they perform the act of reading. The fourth section visits the environment in which the knowledge that comprises literacy is passed on from one generation to the next. The last section, an epilogue to the whole enterprise of reading research, provides apt philosophical reflection.
