through local print media which Fossati analyses in detail to show the cross fertilisation between journalism and the short story While rooted in the South African context the short stories considered also hold a translocal dimension allowing us to explore the ethical and aesthetic practice of intertextuality These are writings that complicate the aesthetics ethics binary generic classifications and the categories of the literary and the political Theoretically eclectic in its approach although largely underpinned by a narratological analysis The South African Short Story in English 1920 2010 When Aesthetics Meets Ethics offers a fresh perspective on the South African short story in English spotlighting several hitherto marginalised figures in South African literary studies
