Readings In Anthropology:

Readings in Anthropology ,1972 Conformity and Conflict Dianna J. Shandy, David W. McCurdy, James P. Spradley, 2023-08-17 This best selling collection of engaging articles has enlivened cultural anthropology courses for decades The lead editor of the sixteenth edition Dianna Shandy first encountered Conformity and Conflict as an undergraduate and began teaching from the book in 1999 From the first through the sixteenth edition the editors have chosen classic works and solicited original pieces that powerfully illuminate the nature of culture and its influence on people s lives One of the overarching principles through the years has been to include material on North American cultures so readers can make their own cultural comparisons and see the relevance of anthropology to their own lives Readers sharpen critical thinking skills as they examine their assumptions identify perspectives and assess their beliefs Selections are organized around topics found in many textbooks and courses facilitating usage by instructors who do not want to assign a standard text Part introductions include discussion of many basic anthropological definitions Article introductions coherently and systematically link selections to anthropological concepts Sections and selections include environmental global and practicing anthropological subfields as well as traditional interests such as language gender kinship economics politics law inequality and religion The forty readings in this collection cover a broad range of theoretical perspectives juxtaposing classic and contemporary ethnographic work to introduce students to a broad range of authors. The selections provide a fascinating way to look at Readings in Anthropology E. Adamson Hoebel, 2003-01-01 human experience and make sense of the world around us

Readings in Early Anthropology James S. Slotkin, 2012-12-06 This book considers the beginnings of anthropology as a cultural tradition and examines how it was developed and transmitted It begins in the twelfth century when commercial capitalism and extensive acculturation spread a secular world view among intellectuals It ends with the eighteenth century because most anthropologists are familiar with the subsequent history of their science Originally published in 1963 The Anthropology of Education David Julian Hodges, 2011 This unique anthology outlines and reconsiders the disciplinary origins of the anthropology of education The book is a student oriented compilation of classic articles written by anthropologists who helped pioneer the field some fifty years ago Their names constitute a veritable who s who in cultural anthropology Kluckhohn Linton Mead Benedict and Redfield to name a few who while accomplished in the general area of cultural anthropology nevertheless gave specific attention to the developing area of the anthropology of education Also included in the collection are contemporary classics by non anthropologists such as Paulo Freire James Baldwin and Jonathan Kozol who tackle more recent issues facing education and educators The readings are termed classic because collectively they represent the best of that to which today s students of the anthropology of education should be exposed for a first rate introduction to the field However despite their relevance and importance many of these articles are out of print difficult to find or otherwise unavailable Still there is an abiding need for the insights they provide The need for the thinking of these

pioneers is as great today arguably greater than when the articles were written Their contributions and insights must not succumb to the awful tendency of our times for scholarship to be both instant and disposable Readings in Cultural Anthropology (Preliminary Edition) Robin Conley Riner, 2017-12-31 Selected Readings in Anthropology University of California, Berkeley.
