Psychology of Reading Keith Rayner, Alexander Pollatsek, Jane Ashby, Charles Clifton Jr., 2012-05-22 Reading is a highly complex skill that is prerequisite to success in many societies in which a great deal of information is communicated in written form Since the 1970s much has been learned about the reading process from research by cognitive psychologists This book summarizes that important work and puts it into a coherent framework The book's central theme is how readers go about extracting information from the printed page and comprehending the text Like its predecessor this thoroughly updated 2nd Edition encompasses all aspects of the psychology of reading with chapters on writing systems word recognition the work of the eyes during reading inner speech sentence processing discourse processing learning to read dyslexia individual differences and speed reading Psychology of Reading 2nd Edition is essential reading for undergraduates graduates and researchers in cognitive psychology and could be used as a core textbook on courses on the psychology of reading and related topics In addition the clear writing style makes the book accessible to people without a background in psychology but who have a personal or professional interest in the process of reading *Stadium*, 1973

The Sociology of Educational Ideas Julia Evetts, 2017-05-08 This study first published in 1973 examines the principles that lie behind educational dilemmas and helps to clarify the difficulties of explanation justification and practical action in the educational system The author explores various key concepts in the education process such as Intelligence Equal Opportunity Knowledge and Selection She shows that different and often contrasting interpretations of these concepts imply certain assumptions about the nature of man the genesis and knowledge the education process and its relation to society This title will be of interest to students of sociology and education

The Animalising Affliction of Nebuchadnezzar in Daniel 4 Peter Joshua Atkins, 2022-12-29 This is a detailed investigation into the nature of Nebuchadnezzar's animalising affliction in Daniel 4 and the degree to which he is depicted as actually becoming an animal Peter Atkins examines two predominant lines of interpretation either Nebuchadnezzar undergoes a physical metamorphosis of some kind into an animal form or diverse other readings that specifically preclude or deny an animal transformation of the king By providing an extensive study of these interpretative opinions alongside innovative assessments of ancient Mesopotamian divine human animal boundaries Atkins ultimately demonstrates how neither of these traditional interpretations best reflect the narrative events While there have been numerous metamorphic interpretations of Daniel 4 these are largely reliant upon later developments within the textual tradition and are not present in the earliest edition of Nebuchadnezzar's animalising affliction Atkins study displays that when Daniel 4 is read in the context of Mesopotamian texts which appear to conceive of the human animal boundary as being indicated primarily in relation to possession or lack of the divine characteristic of wisdom the affliction represents a far more significant categorical change from human to animal than has hitherto been identified *Choice Humor for Reading and*
