Hart,1987 Why did Gerald Ford speak in public once every six hours during 1976 Why did no president speak in Massachusetts during one ten year period Why did Jimmy Carter conduct public ceremonies four times more often than Harry Truman Why are television viewers two and a half times more likely to see a president speak on the nightly news than to hear him speak The Sound of Leadership answers these questions and many more Based on analysis of nearly 10 000 presidential speeches delivered between 1945 and 1985 this book is the first comprehensive examination of the ways in which presidents Truman through Reagan have used the powers of communication to advance their political goals This communication revolution has produced Roderick P Hart argues a new form of governance one in which public speech has come to be taken as political action Using a rhetorical approach Hart details the features of this new American presidency by carefully examining when and where presidents spoke in public during the last four decades and what they said Even though presidents have been speaking more and more Hart reveals they have been saying less and less Rather than leading the nation the modern president usually offers only the hollow sound of leadership Written with great flair and acuteness The Sound of Leadership will become a standard guide to the voices of modern presidential politics *Annotated Archive of Communication References* William D.
