Classical Rhetoric and Its Christian and Secular Tradition from Ancient to Modern Times George A. Kennedy, 2003-07-11 Since its original publication by UNC Press in 1980 this book has provided thousands of students with a concise introduction and guide to the history of the classical tradition in rhetoric, the ancient but ever vital art of persuasion. Now George Kennedy offers a thoroughly revised and updated edition of *Classical Rhetoric and Its Christian and Secular Tradition*. From its development in ancient Greece and Rome through its continuation and adaptation in Europe and America through the Middle Ages and Renaissance to its enduring significance in the twentieth century, he traces the theory and practice of classical rhetoric through history. At each stage of the way he demonstrates how new societies modified classical rhetoric to fit their needs. For this edition Kennedy has updated the text and the bibliography to incorporate new scholarship, added sections relating to women orators and rhetoricians throughout history, and enlarged the discussion of rhetoric in America, Germany, and Spain. He has also included more information about historical and intellectual contexts to assist the reader in understanding the tradition of classical rhetoric.

Sacred Rhetoric Debora K. Shuger, 2014-07-14 There are no studies of a sacred grand style in the English Renaissance, writes Debora Shuger, because even according to its practitioners it was not supposed to exist. Yet the grand style forms the unacknowledged center of traditional rhetorical theory. In this first history of the grand style, Professor Shuger explores the growth of a Christian aesthetic out of the Classical grand style, showing its development from Isocrates to the sacred rhetorics of the Renaissance. These rhetorics advocate a Christian grand style, neither pedantically mimetic nor playfully sophistic, whose models include Tacitus and the Bible as well as Cicero, and whose theoretical sources embrace not only Cicero and Quintilian but Hermogenes and Longinus. This style dominates the best and most scholarly rhetorics of the period, texts written in Latin and while ignored by most recent scholars, extensively used in England throughout the sixteenth and seventeenth centuries. These works are the first attempts since Augustine's pioneering revision of Ciceronian rhetoric to re-ground ancient rhetorical theory on Christian epistemology and theology. According to Professor Shuger, the Christian grand style is passionate, vivid, dramatic, metaphoric, yet this emotional energy and sensuousness is shaped and legitimated by Renaissance religious culture. Thus, sacred rhetoric cannot be considered apart from contemporary theories of cognition, emotion, selfhood, and signification. It mediates between word and world. Moreover, these texts suggest the almost forgotten centrality of neo-Latin scholarship during these years and provide a

crucial theoretical context for England's great flowering of devotional prose and poetry Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Classical Rhetoric in English Poetry Brian Vickers, 1989 Back in print after 17 years this is a concise history of rhetoric as it relates to structure genre and style with special reference to English literature and literary criticism from Ancient Greece to the end of the 18th century The core of the book is a quite original argument that the figures of rhetoric were not mere mechanical devices were not as many believed a nuisance a quite sterile appendage to rhetoric to which unaccountably teachers pupils and writers all over the world devoted much labor for over 2 000 years Rather Vickers demonstrates rhetoric was a stylized representation of language and human feelings Vickers supplements his argument through analyses of the rhetorical and emotional structure of four Renaissance poems He also defines 16 of the most common figures of rhetoric citing examples from the classics the Bible and major English poets from Chaucer to Pope

Rhetoric, Rhetoricians, and Poets Marijke Spies, A. van Strien, 1999 The Netherlandish rhetoricians of the sixteenth century have in the course of the last decades shed their image of third rate poets who lacking all sense of true beauty were capable only of pompous verbosity and a shallow manipulation of form The new scholarly assessment has also shed light on the role they

played in the cultural and literary life of their time and it now appears that many of their dramas are well worth staging Once the sixteenth century was freed from the stigma of being the preparatory phase for the Golden Age the way was clear for thorough studies of the literature produced during the most turbulent period in the history of the Low Countries This volume contains essays which deal with works written not only in Dutch but also in French and in New Latin with topics ranging from the effects of poetic principles on literary practice to the use of poetry as a means for improving society and developing the individual The unifying thread in these studies is the pivotal importance of rhetoric in all forms of literary expression

A New History of Classical Rhetoric George A. Kennedy, 2009-07-01 George Kennedy's three volumes on classical rhetoric have long been regarded as authoritative treatments of the subject This new volume an extensive revision and abridgment of *The Art of Persuasion in Greece* *The Art of Rhetoric in the Roman World* and *Greek Rhetoric under Christian Emperors* provides a comprehensive history of classical rhetoric one that is sure to become a standard for its time Kennedy begins by identifying the rhetorical features of early Greek literature that anticipated the formulation of metarhetoric or a theory of rhetoric in the fifth and fourth centuries b c e and then traces the development of that theory through the Greco Roman period He gives an account of the teaching of literary and oral composition in schools and of Greek and Latin oratory as the primary rhetorical genre He also discusses the overlapping disciplines of ancient philosophy and religion and their interaction with rhetoric The result is a broad and engaging history of classical rhetoric that will prove especially useful for students and for others who want an overview of classical rhetoric in condensed form Courting Power Laurie Shepard, 2013-08-21 This text chronicles a change in epistolary persuasion in the 1230 s crystallized at the imperial chancery of Frederick II Emperor from 1220 1250 There traditional appeals premised on authority and harmony were challenged by letters in which historical circumstances functioned as an integral part of the strategy of persuasion Based on the close reading of *Artes Dictandi* as well as a series of letters issued from the papal and imperial chanceries this book explores the theory and practice of medieval letter writing Letters are evaluated as verbal acts intended to persuade with the public as the ultimate arbiter of success The author argues that the form proportion and style of letters were contoured by ideology

and Piers Plowman offers a series of new readings of the allegorical poem Piers Plowman but it is also a book about allegory. It argues not just that there are distinctively disruptive arts that occur in allegory but that allegory because it is interested in the difficulty of making meaning is itself a disruptive art. The book approaches this topic via the study of five medieval allegorical narrative structures that exploit diegetic conflict and disruption. Although very different they all bring together contrasting descriptions of spiritual process in order to develop new understanding and excite moral or devotional change. These five structures are the paradiastolic hypocritical figure such as vices masked by being made to look like adjacent virtues, personification, debate, violent language and gestures of apophasis, narratives of bodily decline and grail romance. Each appears in a range of texts which the book explores along with other connected materials in medieval rhetoric, logic, grammar, spiritual thought, ethics, medicine and romance iconography. These allegorical narrative structures appear radically transformed in Piers Plowman where the poem makes further meaning out of the friction between them. Much of the allegorical work of the poem occurs at the points of their intersection and within the conceptual gaps that open up between them. Ranging across a wide variety of medieval allegorical texts, the book shows from many perspectives allegory's juxtaposition of the heterogeneous and its questioning of supposed continuities.

Academic Constraints in Rhetorical Criticism of the New Testament J. David Hester Amador, J. David Hester, 1999-01-01 Rhetorical criticism promised to bring New Testament studies into a new era that approached the Bible as a document of persuasive discourse. Major proponents of this approach suggested that its potential lies in its democratization of biblical interpretation. To date that promise has never been fulfilled. The reasons can be found by exploring the rhetoric of these rhetorical critics. Such an exploration uncovers systems of disciplinary constraints and discursive habits that keep rhetoric firmly within traditional units of academic biblical interpretation. The promise of rhetoric can only be fulfilled by shattering all notions of a rhetorical programme of biblical interpretation.

The Science of Conjecture James Franklin, 2001-07-27 How did we make reliable predictions before Pascal and Fermat's discovery of the mathematics of probability in 1654? What methods in law, science, commerce, philosophy and logic helped us to get at the truth in cases where certainty was not attainable? In *The Science of Conjecture* James Franklin examines how judges, witch inquisitors and juries evaluated evidence, how scientists weighed reasons for and against scientific theories and how merchants counted shipwrecks to determine insurance rates. *The Science of Conjecture* provides a history of rational methods of dealing with uncertainty and explores the coming to consciousness of the human understanding of risk.

explain this complex ideal of spiritualized rhetoric **Excavating the Memory Palace** Seth Long,2021-01-04 With the prevalence of smartphones massive data storage and search engines we might think of today as the height of the information age In reality every era has faced its own challenges of storing organizing and accessing information While they lacked digital devices our ancestors when faced with information overload utilized some of the same techniques that underlie our modern interfaces they visualized and spatialized data tying it to the emotional and sensory spaces of memory thereby turning their minds into a visual interface for accessing information In *Excavating the Memory Palace* Seth David Long mines the history of Europe s arts of memory to find the origins of today s data visualizations unearthing how ancient constructions of cognitive pathways paved the way for modern technological interfaces Looking to techniques like the memory palace he finds the ways that information has been tied to sensory and visual experience turning raw data into lucid knowledge From the icons of smart phone screens to massive network graphs Long shows us the ancestry of the cyberscape and unveils the history of memory as a creative act **Landmark Essays on Rhetorical Criticism** Thomas W. Benson,2020-08-18 This book is an anthology of landmark essays in rhetorical criticism In historical usage a landmark marks a path or a boundary as a metaphor in social and intellectual history landmark signifies some act or event that marks a significant achievement or turning point in the progress or decline of human effort In the history of an academic discipline the historically established senses of landmark are mixed together jostling to set out and protect the turfmarkers of academic specialization aligning footnotes to signify the beacons that have guided thought and against these conservative tendencies attempting to contribute fresh insights that tempt others along new trails The editor has chosen essays for this collection that give some sense of the history of rhetorical criticism in this century especially as it has been practiced in the discipline of speech communication He also emphasizes materials that may illustrate where the discipline conceives itself to be going how it has marked its boundaries how it has established beacons to invite safety or warn us from the rocks and how it has sought to preserve a tradition by subjecting it to constant revision and struggle In the hope of providing some coherence the scope of this collection is limited to rhetorical criticism as it has been practiced and understood within the discipline of speech communication in North America in this century **Landmark Essays on Rhetoric and Literature** Craig Kallendorf,2017-10-03 The studies of rhetoric and literature have been closely connected on the theoretical level ever since antiquity and many great works of literature were written by men and women who were well versed in rhetoric It is therefore well worth investigating exactly what these writers knew about rhetoric and how the practice of literary criticism has been enriched through rhetorical knowledge The essays reprinted here have been arranged chronologically with two essays selected for each of six major periods Antiquity the Middle Ages the Renaissance including Shakespeare the 17th century the 18th century and the 19th and 20th centuries Some are more theoretically oriented whereas others become exercises in practical criticism Some cover well trod ground whereas others turn to parts of the rhetorical tradition that are often

overlooked Scholars in the field should benefit from having this material collected together and reprinted in one volume but the essays included here will also be useful to graduate students and advanced undergraduates for course work and general reading Students of rhetoric seeking to understand how the principles of their field extend into other forms of communication will find this volume of interest as will students of literature seeking to refine their understanding of the various modes of literary criticism
