Participation Programs in Work Organizations Aviad Bar-Haim, 2002-05-30 Employee participation programs have many faces many definitions many forms and they change all the time For some people they are meant to solve every problem in the workplace For others they are ways to reduce resistance to management and its efforts to bring about organizational change Still others see them as totally redundant and a hindrance to efficiency and the implementation of good management practices To make sense of it all Bar Haim integrates historically thematically analytically the wide but often incoherent knowledge we have about these programs and in doing so portrays them in a clear useful multidimensional manner The result is a work of scholarship and practical guidance that students scholars researchers and executives will find important an action oriented source of vital information Bar Haim shows that participation programs in work organizations have always attempted to solve three basic human problems problems stemming from industrial democracy and equality work alienation and occupational and managerial effectiveness To do this he uses a rare multidimensional technique He describes and analyzes the processes and behavior of participation participants and organizational forms using a variety of conceptual and theoretical frames drawn from the social and management sciences He enhances our understanding of participation programs on micro and macro levels and then provides practical guidelines from the real world experience of other scholars and executives Among the several ironies he discovers are that the roles of enthusiasts opponents and skeptics changed during the course of a jubilee of these programs By integrating a large body of research and suggesting a formal model to evaluate existing employee programs and projected ones his book attempts to ease the enigmatic ambivalence we have toward worker participation in general In fact he shows

that by better understanding the dynamics of participation programs it is possible for those who desire such programs to create construct and maintain better ones ECMLG 2016 - Proceedings of the 12th European Conference on Management, Leadership and Governance , Proceedings of the 12th European Conference on Management Leadership and Governance
