The Quick Theory Reference Guide Karin Jordan, 2007 Since the beginning of the concepts of family therapy mental health professionals have known that the family the system is a powerful source of support for change or a powerful force for resistance to change Some professionals work with individuals some with families and some with groups However all work with the context of the systems family group community country etc Students especially beginning students are overwhelmed and confused at the variety of approaches to working with

clients Many programs introduce students to individual as well as systems concepts in the course of training Students need assistance in learning this variety of theories They need to be able to compare and contrast theories and techniques to determine when and where to utilise the best skills in order to facilitate client change Dr Karin Jordan has compiled a comprehensive text that enables the students to discover each theory as it is presented in its purist form The text is accessible yet the content provides comprehensive knowledge of each theory Dr Jordan has brought together the master educators and clinicians in our fields to write about their particular expertise

School-Based Mental Health Ray W. Christner, Rosemary B. Mennuti, 2008-12-22 This volume provides school based practitioners with a comprehensive and comparative guide to the strategic interventions therapeutic modalities and treatment approaches that are most commonly and effectively used in educational settings Three main sections of the text present a foundation of universal interventions targeted interventions and alternative interventions appropriate for use in schools Unifying the chapters are two central case examples allowing the reader to see and evaluate the strengths and potential challenges of each technique in a familiar situation This emphasis on case examples and the comparative structure of the volume will provide a level of hands on and practical learning that is helpful for both students and mental health practitioners working in schools for the first time and as a resource for more seasoned professionals who need to expand the tools at their disposal
