Readings on the Multinational Corporation in Kenya Raphael Kaplinsky, 1978 An attempt to illuminate the activities of multinational corporations operating in Kenya and to asses their economic and political impact Readings on the multinational corporation in Kenya ,1978 The Emergence of Multinational Corporations in Kenva. A Discussion of the Internalization Theory Mbogo Wa Wambui, 2016-05-13 Essay from the year 2011 in the subject Economics International Economic Relations grade 18 30 University of Nairobi course Political Economy language English abstract The paper is an evaluation of the influence of multinational corporations in Kenya and evaluates whether or not they have benefited Kenyan citizens Many theories have been advanced in explaining the origin development and motivation of multinational corporations investments globally Multinational corporations MNCs are motivated by factors either internal to the investment or external to the location The determinant of expansion of these firms may mean there is need to produce and sell goods and or services in a number of countries This is either through exports or through direct investment in these countries But first of all what is a multinational corporation A multinational company or business has offices shops or factories in several countries Multinational corporations are business corporations based in one particular country as the mother country with subsidiaries in other countries. They may also be defined in the context of the expertise and the origin of staff They qualify as so if the extent of their staff establishment reflects a global representation both locally and internationally in their subsidiaries This paper seeks to discuss the Internalization Theory in explaining the emergence of multinational corporations in a developing country in our case Kenya Based on her experience we shall discuss the import of the Internalization Theory in understanding the emergence of at least 2 multinational corporations The Development of Corporate Capitalism in Kenya, 1918-77 Nicola Swainson, 1980-01-01 Readings on the Multinational Corporations in Kenya Kaplinsky Raphael, 1978 **Kenya** Shadrack W. Nasong'o, Godwin R. Murunga, 2013-07-18 The path towards democracy in Kenya has been long and often tortuous Though it has been trumpeted as a goal for decades democratic government has never been fully realised largely as a result of the authoritarian excesses of the Kenyatta Moi and Kibaki regimes This uniquely comprehensive study of Kenya's political trajectory shows how the struggle for democracy has been waged in civil society through opposition parties and amongst traditionally marginalised groups like women and the young It also considers the remaining impediments to democratisation in the form of a powerful police force and damaging structural adjustment policies Thus the authors argue democratisation in Kenya is a laborious and non linear process Kenyans recent electoral successes the book concludes have empowered them and reinvigorated the prospects for democracy heralding a Kenya Norman Miller, Rodger Yeager, 2018-03-09 First Published in more autonomous and peaceful twenty first century 2018 This book captures the self confident spirit that characterizes Kenya and provides unique insights into how this nation of contemporary Africa is faring in its continuing guest for prosperity focusing on the contemporary period beginning with

the rise to power of President Daniel arap Moi in 1978 **Kenya and Britain after Independence** Poppy Cullen, 2017-06-30 This book explores British post colonial foreign policy towards Kenya from 1963 to 1980 It reveals the extent and nature of continued British government influence in Kenya after independence It argues that this was not simply about neo colonialism and Kenya s elite had substantial agency to shape the relationship The first section addresses how policy was made and the role of High Commissions and diplomacy It emphasises contingency with policy produced through shared interests and interaction with leading Kenyans It argues that British policy makers helped to create and then reinforced Kenya s neo patrimonialism The second part examines the economic military personal and diplomatic networks which successive British governments sustained with independent Kenya A combination of interlinked interests encouraged British officials to place a high value on this relationship even as their world commitments diminished This book appeals to those interested in Kenyan history post colonial Africa British foreign policy and forms of diplomacy and policy making

Post-Colonial Kenya Rok Ajulu, 2021-07-28 This engaging reassessment of postcolonial Kenya argues that the country s political turmoil over the last fifteen years is a continuation of repeating patterns of political contestation and conflict across Kenya's history When Kibaki stole the 2007 presidential election leading to a spiral of violence that left over 1 000 people dead in the space of a month many analysts wondered how this could happen in a country that had previously been considered an oasis of peace in an otherwise conflict prone region Combining political economy with political sociology in this book Rok Ajulu demonstrates that in fact authoritarianism and the predatory deployment of the state has been the predominant feature of Kenya's post colonial period Focusing on how power has been mediated in the country politically and the characters of the elites in charge the analysis shows the dominance of extra economic political coercion in economic activity In a context in which economic activity remains predominantly political continued control of state power is so crucial for the new ruling class that it must be retained at all costs Rok Ajulu s masterful final book is a powerful and wide ranging contribution to studies on post colonial Kenya and will be an important resource for researchers from across political science Give and Take Nitsan Chorev, 2019-12-10 Give and Take looks at local economics history sociology and African Studies drug manufacturing in Kenya Tanzania and Uganda from the early 1980s to the present to understand the impact of foreign aid on industrial development While foreign aid has been attacked by critics as wasteful counterproductive or exploitative Nitsan Chorev makes a clear case for the effectiveness of what she terms developmental foreign aid Against the backdrop of Africa s pursuit of economic self sufficiency the battle against AIDS and malaria and bitter negotiations over affordable drugs Chorev offers an important corrective to popular views on foreign aid and development She shows that when foreign aid has provided markets monitoring and mentoring it has supported the emergence and upgrading of local production In instances where donors were willing to procure local drugs they created new markets that gave local entrepreneurs an incentive to produce new types of drugs In turn when donors enforced exacting standards as a condition to access those markets they

gave these producers an incentive to improve quality standards And where technical know how was not readily available and donors provided mentoring local producers received the guidance necessary for improving production processes Without losing sight of domestic political economic conditions historical legacies and foreign aid s own internal contradictions Give and Take presents groundbreaking insights into the conditions under which foreign aid can be effective Capitalists, the State, and Development David Himbara, 1994 **Indigenization of African Economies** Adebayo Adedeji,2023-08-18 Originally published in 1981 this book examines the progress of a number of national efforts to move towards economic self reliance It consists of case studies from Egypt Zambia Ghana Nigeria Kenya Tanzania Ethiopia Botswana Lesotho and Swaziland and Senegal The studies are set in a framework that outlines the historical background to African economic dependence and they discuss the theoretical and practical implications of that dependence It makes an important contribution to the study of indigenization bringing together a group of African specialists writing from the inside and articulating the continent's challenges with convincing authority Toward a Political Economy of Development Robert H. Bates, 2023-11-15 Regulating Transnational Corporations in Domestic and International Regimes Evaristus Oshionebo, 2009-01-01 This study explores the range of strategies for regulating the social and environmental practices of The Rise and Fall of Philanthropy in East Africa Robert G. Gregory, 2017-07-05 TNCs in Africa s extractive industries Robert G Gregory challenges the apparent assumption that non Western peoples lack a significant indigenous philanthropic culture Focusing on the large South Asian community in East Africa he relates how over a century they built a philanthropic culture of great magnitude and how it finally collapsed under the ascendency of increasing state regulation and policies directed against non African communities Compelled by poverty to seek better oppurtunities overseas most Asians arrived in East Africa as peasant farmers Denied access to productive land and sensing economic opportunity they turned to business Despite severe forms of racial discrimination in the colonial society they suffered few restrictions on their business enterprises and some became very wealthy Gregory s historical analysis shows philanthropy as an important contribution one that stemmed from deep roots in Hindu Muslim and Buddhist culture The sense of nonracial social responsibility cultivated social medical and educational facilities designed for all This age of philanthropy terminated with the Asian exodus The socialist and racial policies adopted by East African governments over the past few decades have virtually destroyed the foundation necessary for philanthropy as well as the distinct Asian cultural identity Gregory's account of the East Asian's role in philanthropy deserves great attention and sober reflection Economic Development of Africa, 1880-1939 vol 1 David Sunderland, 2024-10-28 One of the main motives for British imperialism in Africa was economic gain This collection examines the ways in which Britain developed Africa and in so doing benefited her own economy **The Comforts of Home** Luise White, 2009-02-15 This history is the first fully fleshed story of African Nairobi in all of its complexity which foregrounds African experiences Given the overwhelming white dominance in the written sources it is a remarkable achievement Claire

Robertson International Journal of African Historical Studies White s book takes a unique approach to a largely unexplored aspect of African History It enhances our understanding of African social history political economy and gender studies It is a book that deserves to be widely read Elizabeth Schmidt American Historical Review An Economic History of Kenya William Robert Ochieng', Robert M. Maxon, 1992 Globalization and Survival in the Black Diaspora Charles Green, 1997-07-10 This volume draws attention to the plight of urban blacks in the contemporary world and links their situation across five key global regions It argues that while the world's population is predominantly urban persons of African descent are disproportionately urbanized and impoverished and it shows how significant changes in the global arena among them new information technology the increased hegemony of market structures and the resulting socioeconomic instability have altered the material circumstances of these and other poor and working class urban dwellers The book argues further that although the problems triggered by the late twentieth century challenge appear to impact blacks uniformly the societal and cultural specific dimensions of their plight should not be overlooked Its findings and implications buttress the need for greater unity among urban blacks in the diaspora as well as offer solutions that are sensitive to their societal and cultural differences The African-Asian Divide Paul Vandenberg, 2013-09-13 Why have Africans not gained a more dominant position in urban manufacturing in Kenya This question is explored through an analysis of the institutions both formal and informal that have affected patterns of capital accumulation in Kenya by the African and Asian Indian communities Using a new institutional economics approach this book explores the history of economic activity through the pre colonial colonial and post colonial periods including the transformative period of British rule During the colonial period Asians were brought in to build the railways and subsequently focused on urban based activities Africans meanwhile found it difficult to move out of agriculture Thus the ethnic sectoral division of activities was entrenched by the formal laws and powers of the British Following independence the network and financial capital that Asians had built up allowed them to survive early attempts at the Africanization of industry Africans now supported by the formal institutions of the state still found it difficult to engage in manufacturing because they lacked the informal networks that support trade and credit The analysis is supported by the results of a contemporary survey of 120 manufacturing firms in Nairobi s metal sector that highlight the division between smaller African firms and larger Asian ones
