Ready For The Real World:

God's Schools Melinda Bollar Wagner, 1990 Melinda Wagner goes beyond this stereotype to portray the way these schools foster American popular culture and professional education culture as well as Christian culture In her participant observation study of a variety of Christian schools sponsored by fundamentalist evangelical new charismatic Holiness and Pentecostal Christians Wagner describes and interprets how such compromises are made

Cryptocurrencies The New York Times Editorial Staff, 2018-12-15 The worlds of finance and technology have been rocked by Bitcoin and other cryptocurrencies encrypted digital currency created by complex computer algorithms First developed in 2009 and launching several speculative frenzies cryptocurrencies have created and destroyed fortunes over their turbulent history Across years of New York Times articles readers will discover the unfolding story of a technology that while rarely performing as promised has produced profound effects that cannot be ignored

The Liberal Arts Paradox in Higher Education Kathryn Telling, 2023-04-28 The liberal arts approach to higher education is a growing trend globally We are told that the mental dexterity and independent questioning spirit cultivated by such interdisciplinary degrees are the best preparation for the as yet unknown executive jobs of tomorrow This book explores the significant recent growth of these degrees in England in order to address an enduring problem for higher education the relationship between meritocracy and elitism Against the view that the former is a myth providing rhetorical cover for the latter it argues that these are two entangled but discrete value systems Sociology must now pay attention to how students and academics attempt to disentangle them

Brainmedia Flora Lysen, 2022-07-28 Will we ever be able to see the brain at work Could it be possible to observe thinking and feeling as if watching a live broadcast from within the human head Brainmedia uncovers past and present examples of scientists and science educators who conceptualize and demonstrate the active human brain guided by new media technologies from exhibitions of giant illuminated brain models and staged projections of brainwave recordings to live televised brain broadcasts brains hooked up to computers and experiments with brain to brain synchronization Drawing on archival material Brainmedia outlines a new history of live brains arguing that practices of and ideas about mediation impacted the imagination of seeing the brain at work By combining accounts of scientists examining brains in laboratories with examples of public demonstrations and exhibitions of brain research Brainmedia casts new light on popularization practices placing them at the heart of scientific work

Reality Simulation in Science Fiction Literature, Film and Television Heather Duerre Humann,2019-08-27 In recent decades science fiction in both print and visual media has produced an outpouring of story lines that feature forms of simulated reality These depictions appear with such frequency that fictional portrayals of simulated worlds have become a popular sci fi trope one that prompts timeless questions about the nature of reality while also tapping into contemporary debates about emerging technologies In combination with tech driven tensions this study shows that our collective sense of living in politically uncertain times also propels the popularity of these story lines Because of the kinds of questions they raise and the cultural anxieties they provoke these fictional representations provide a window into contemporary culture and demonstrate how we are reassessing our own reality
