McGibney, 2025-03-03 Caregiving is a solo journey lived among thousands of others who are walking a similar road Each journey is unique because each relationship between caregiver and the one needing the care is one of a kind The roots go down deep and hold all the experiences feelings joys and sorrows that have happened within that relationship Many people are familiar with the journey but no one knows day in day out what a caregiver is experiencing We often become parents to our parents with no manual to guide us Well meaning friends may say I know exactly how you feel but they cannot know exactly No matter how well they know you your loved one your situation they do not know everything this caregiving asks of
