Real Federalism

John D. Nugent

Real Federalism:

Real Federalism Michael S. Greve, 1999 Real federalism is a federalism that promotes citizen choice and competition among the states

Oil, Democracy, and the Promise of True Federalism in Nigeria Augustine A. Ikein, Diepreye S. P. Alamieyeseigha, Steve S. Azaiki, 2008 The Niger Delta region is prone to conflicts and restiveness as a consequence of oil activities and under development which ultimately induce poverty Oil Democracy and the Promise of True Federalism in Nigeria attempts to demonstrate this unfortunate byproduct of federalism in Nigeria Calling for resource control and the practice of True Federalism the contributors of this volume identify some of the major endemic problems for the Niger Delta people It is in this light that the contributors have presented the contending views on the challenges and opportunities on Nigeria's path towards the practice of True Federalism Offering solution ideas for Niger Delta development and the promotion of a peaceful coexistence this comprehensive volume proposes hopeful yet powerful arguments for the Niger Delta region

Comprehensive Federalism Reform United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Intergovernmental Relations, 1986

Dynamics of Indian Federalism Mokbul Ali Laskar, This book is a detailed overview of the institutional and historical trajectory of Indian federalism including both territorial and non territorial aspects of Indian federalism An extensive analysis has been made of the various federal policy measures adopted by different rulers from time to time particularly with an emphasis on federalism under the British colonial rule and the role of princely states in Indian federalism It has made a critical analysis of the Constituent Assembly Debates on federalism and the role of political leaders in shaping of Indian federalism Further a critical analysis has been made about the changing nature and dynamics of Indian federalism in the post independent India including the contemporary debates on various aspects of Indian federalism The book is an important compendium for those wishing to have first hand information on Indian federalism and may be very useful for scholars interested in center state relations It can be an important guide for researchers in identifying various research questions for further study on Indian federalism Most importantly it can be a very useful course book for students or professionals for whom the existing shorter introductions to the subject may not suffice Any undergraduate student who needs to undertake an advance level study on Indian Politics and Government or Indian federalism will find the book very useful International readers of comparative politics will also find the book useful Additionally the book may be useful for those who are interested in Indian Administrative Services IAS and for the politicians as well

The Dynamics of Federalism in Nigeria Ambrose Ihekwoaba Egwim, 2020-07-08 This book analyzes the concept true federalism to examine whether there are definable dimensions of power sharing that make true federalism The author takes a critical look at dimensions on political restructuring in Nigeria which have been termed true federalism The work fills a significant gap in the existing literature on the theory and practice of federalism The project will be useful to the students and professors of African Studies political science Nigeria federalism public administration and policy Additionally the

monograph will be interesting to the general public who seek to know more about contemporary issues in Nigeria

Federalism in Africa Aaron Tsado Gana, Samuel G. Egwu, 2003 Looking at the experiences of other federal societies across the globe this volume interrogates the problem of national integration within the context of ethno religious and cultural pluralism and presents exciting prospects for the resolution of the National Question Compelling and indispensable this work is the most comprehensive and authoritative treatment of the subject in recent years **Originalism,**

Federalism, and the American Constitutional Enterprise Edward A. Purcell, 2007-12-28 In this lively historical examination of American federalism a leading scholar in the field refutes the widely accepted notion that the founding fathers carefully crafted a constitutional balance of power between the states and the federal government Edward A Purcell Jr bases his argument on close analysis of the Constitution's original structure and the ways that structure both induced and accommodated changes over the centuries There was no clear agreement among the founding fathers regarding the true nature of American federalism Purcell contends nor was there a consensus on correct lines dividing state and national authority Furthermore even had there been some true original understanding the elastic and dynamic nature of the constitutional structure would have made it impossible for subsequent generations to maintain any original or permanent balance The author traces the evolution of federalism through the centuries focusing particularly on shifting interpretations founded on political interests He concludes with insights into current issues of federal power and a discussion of the grounds on which legitimate decisions about federal and state power should rest **Federalism and Political Culture** Aaron

Wildavsky, 2021-12-16 Aaron Wildavsky well understood that federalism is about freedom and diversity not hierarchy and decentralization His was an intensely normative concern with the promise of federalism and its abandonment in the United States Over time he became increasingly focused on political culture federalism and the Western domains of social life as fields of cultural competition Although his interest in federalism was overshadowed by his work on political culture it remained a visible theme in his writing Federalism and Political Culture is a collection of Wildavsky's essays on federalism over the latter part of his career It is the second in a series of his posthumous collected writings Federalism is not a conventional collection on comparative federal systems but deals with what federalism means how it should work and how it has been abused by those in power who protested their commitment to federal principles and practices but acted otherwise Wildavsky's analyses concentrate mainly on American federalism after the Great Society of the 1960s which brought major changes to the American federal system The essays trace the progress of his thought as he first argues that true federalism is noncentralization then to federalism as competition and then combines both in reasserting that real federalism is possible only in a confederation The Fallacies of States' Rights Sotirios A. Barber, 2013-01-14 Barber shows how arguments for

states rights from John C Calhoun to the present offend common sense logic and bedrock constitutional principles The Constitution is a charter of positive benefits not a contract among separate sovereigns whose function is to protect people

from the central government when there are greater dangers to confront

Comparative Federalism in the Devolution Era Neil Colman McCabe, 2002-01-01 Comparative Federalism in the Devolution Era offers political scientists and legal scholars a new perspective on the diverse nature and exercise of postmodern federalism

Safeguarding Federalism John D. Nugent, 2012-11-27 Explains the dynamics of federalism in today's policymaking process The checks and balances built into the U S Constitution are designed to decentralize and thus limit the powers of government This system works both horizontally among the executive legislative and judicial branches and vertically between the federal government and state governments That vertical separation known as federalism is intended to restrain the powers of the federal government yet many political observers today believe that the federal government routinely oversteps its bounds at the expense of states In Safeguarding Federalism John D Nugent argues that contrary to common perception federalism is alive and well if in a form different from what the Framers of the Constitution envisioned According to Nugent state officials have numerous options for affecting the development and implementation of federal policy and can soften slow down or even halt federal efforts they perceive as harming their interests Nugent describes the general approaches states use to safeguard their interests such as influencing the federal policy contributing to policy formulation encouraging or discouraging policy enactment participating in policy implementation and providing necessary feedback on policy success or failure Demonstrating the workings of these safeguards through detailed analysis of recent federal initiatives including the 1996 welfare reform law the Clean Air Act moratoriums on state taxation of Internet commerce and the highly controversial No Child Left Behind Act Nugent shows how states promotion of their own interests preserves the Founders system of constitutional federalism today

Strategies for Environmental Success in an Uncertain Judicial Climate Michael Allan Wolf, 2005 Over the last 30 years we have made great progress in curbing the most obvious pollution largely due to effective enforcement of federal and state environmental statutes Now however there is increasing skepticism of the efficiency and even the constitutionality of our bedrock environmental laws from all branches of the federal government including the courts This book is the result of lively debate at the conference Alternative Grounds Defending the Environment in an Unwelcome Judicial Climate held on November 11 2004 and co sponsored by the University of Florida's Levin College of Law and the Environmental Law Institute Topics ranged from U S Supreme Court trends in environmental law jurisprudence to innovative federal and state constitutional and statutory arguments that defend environmental protections to federal provisions most vulnerable to attack on federalism takings and separation of powers grounds This thought provoking and insightful collection of essays provides smart realistic solutions to the profound and complex legal challenges facing defenders of our environmental protections With contributions by Richard J Lazarus Sean H Donahue Paul Boudreaux William W Buzbee Robert L Glicksman Alyson C Flournoy Christopher H Schroeder Douglas T Kendall Susan George J B Ruhl Donald W Stever and Mary Jane Angelo

Federalist Government in Principle and Practice Donald P. Racheter, Richard E. Wagner, 2012-12-06 Federalism has

generally been characterized as a system of government that is friendly to liberty. It is not obvious though why this should be so. Federalism is a form of government where citizens simultaneously reside in at least two governments each of which has independent authority to tax and to regulate. By contrast in a unitary form of government citizens face only one government with independent authority to tax and regulate. At first glance it would seem a bit strange to claim that liberty is more secure when citizens are members of two governments with independent authority than when they are members of only one such government. The relationship between federalism and liberty turns out to be a complex one and one that is capable of working in either direction. Whether federalism supports or erodes liberty depends on importantly on the institutional framework within which federalist governance takes place. The essays in *Federalist Government in Principle and Practice* examine this institutionalist theme from both theoretical and practical perspectives. **National Identity** Barrister

Nathaniel Uko-Ima, 2014-07-26 Historically before the advent of colonialism African continent was made up of independent states and kingdoms with organized political social and economic practices. Most of the states and kingdoms had their social and political structures founded on various religious beliefs. In order to understand the fundamental issues in the post colonial African nations the socio political students must understand the core socio political pre existence of these states and kingdoms. This book is aimed at liberating the minds of pre colonial ideologies and colonial mediocrity and points African leaders and college students the tomorrow leaders on the right direction by studying my pragmatic solutions that could lead African Nations out of the present catastrophic experiences to utter freedom and prosperity. Unity or Separation Daniel R. Kempton, Terry D. Clark, 2001-11-30 Many analysts initially believed that the process of Soviet disintegration would inevitably open a Pandora's box of ethnic nationalism and regional self determination. But despite obvious setbacks such as Chechnya the developments of the last decade have shown that while forces of disintegration remain a very real threat the fifteen successor states have managed to stay largely intact. One explanation for this somewhat unexpected success is the varied strategies of center periphery relations adopted by the post Soviet states tailored to meet the unique of circumstances faced by each former republic of the Soviet Union. The contributors to this up to date volume examine the specific cases of success and failure in center periphery relations in the former USSR and offer some provocative overall conclusions about the progress made and the impact on the process of democratization. The cases examined in this volume are drawn from Russia Lithuania Ukraine Uzbekistan among others. These case studies demonstrate that realtions between national and local governments have been evolving differently in each of the successor states in the but in each case there has been a conscious attempt to create stable center periphery relations which give a degree of autonomy to minority groups while still providing for a stable state and democratic development. This book will be of interest to scholars and students of the former Soviet Union and those interested in federalization and center periphery. *Institutions and Institutional Change in the Federal Republic of Germany* L. Helms, 2000-04-18 This volume offers a detailed account of German political institutions as they have

developed over the last decades Each of the individual chapters written by leading German specialists provides a balanced assessment of the institution under consideration as well as the more recent political research in the given field The extended introductory chapter by the editor gives an overview of how the institutional system of the Federal Republic has combined the conflicting tasks of political stability and adaptation

Why Constitutions Matter Nils Karlson, 2017-09-04 As countries in the twentieth and twenty first centuries change from colonialist to independent rule or from a socialist to a democratic society the need for a written constitution becomes apparent Countries in the former Soviet Union Africa or nations once part of the British Empire face social economic and humanitarian problems as they experiment with democratic rule Such issues as clearly defining where sovereignty lies how much power is given to the people and what rights are possessed by a nation s citizenry are new to these countries While a constitution being a man made document is subject to interpretation and does not always delineate in a lucid framework its parameters for future generations it is clear that constitutions do matter This volume compiled under the direction of the City University of Stockholm is an important study on the significance of constitutions and constitutional law in a democratic society A number of scholars in law political science and economics have contributed to this volume They include James Buchanan Aleksander Peczenik Mats Lundstrom Joakim Nergelius Sverker Hard Niclas Berggren Peter Kurrild Klitgaard Wolfgang Kasper and Erik Moberg All add to the understanding of the intertwining roles of politics and the social sciences in a modern democratic state They explore why a constitution is essential the relationship between a constitution and a rational political system the democratic principle of majority rule why constitutional constraints are needed in a democratic state recent constitutional reforms in the United Kingdom the electoral system and its centrality in a democracy evolution in constitutional change competition within a federal structure and the connection between politics and economics **Why Constitutions Matter** is a fascinating and timely study of constitutionalism and will be of interest to students of politics law economics and sociology

Narrowing the Nation's Power United States. Congress. Senate. Committee on the Judiciary, 2003 *History of Federal Government* Edward Augustus Freeman, 1863

Russia Irvin Studin, 2017-12-30 This book examines how Russia the world s most complicated country is governed As it resumes its place at the centre of global affairs the book explores Russia s overarching strategies and how it organizes itself or not in policy areas ranging from foreign policy and national security to health care education immigration science sport agriculture the environment and criminal justice The book also discusses the structures and institutions on which Russia relies in order to deliver its goals in these areas of national life as well as what s to be done in policy terms to improve the country s performance in its first post Soviet century Edited by Irvin Studin the book includes contributions from a tremendous list of Russia s leading thinkers and specialists including Alexei Kudrin Vladimir Mau Alexander Auzan Simon Kordonsky Fyodor Lukyanov Natalia Zubarevich and Andrey Melville
