Facts of Life George Emery, 1993-10-04 Emery s central argument is that scholars must recognize the social historical character of the statistics before using them as a basis for research He defines social broadly to include both an external component the ideologies concerns and processes in society that influenced civil registration officials and an internal component the complex way officials organized civil registration which greatly affected the statistics Thus he treats statutes regulations the content of registration forms and definition of significant terms as part of the social history of the statistics not as technical background material The issues treated include the incomplete registration of vital events the influence of different definitions of live birth on statistics for infant deaths the nature of statistics for death by cause and the problem of residence

the difference between vital events occurring in a municipality and those involving its residents Emery places Ontario's vital statistics in the context of the international statistics movement and the development of the province's registration system He then provides empirical illustrations of how aspects of definition influence the data and suggests strategies for responding to such problems The chapter providing a case study of the completeness of mortality registrations for 1869 to 1972 was prepared in collaboration with Kevin McQuillan

realities

Hortense Calisher's second novel is a multigenerational story of art, family, and marriage. Opening with Liz and David's wedding and chronicling the first four years of their life together, Calisher follows the couple through their evolution into erudite, antimaterialist artists. They move into a sparse downtown Manhattan loft, prideful of their rebellious choice to lead lives unfettered by possessions. As time passes, they realize that their unbridled optimism is slowly being abraded by the disappointments of reality. With the ambiguously pleasant news that Elizabeth's mother and David's father, both widowed, are finding new love together, Calisher further explores the couple's interplay and draws piercing parallels between the idealism of youth and the sagacity of old age.

Textures of Life explores the nature of relationships and the shifts, both minute and seismic, that affect the power dynamics as Liz and David constantly redefine their roles and opinions in order to sustain their relationship.
