Real Heat Gender And Race In The Urban Fire Service:

Real Heat Carol A. Chetkovich, 1997 In the struggle over affirmative action no employment setting has seen more friction than urban fire departments Thirty years of legal and political efforts have opened the doors of this historically white male preserve but men of color have yet to consolidate their gains and women's progress has been even more tenuous In this unique and compelling account of affirmative action at the street level Carol Chetkovich explores the ways in which this program has succeeded and failed Chetkovich follows the men and women of the Oakland Fire Department Class 1 91 through their academy training and eighteen month probation In vivid and sometimes surprising narratives newcomers tell of their first battle with a full fledged fire their reactions to hazing rituals and their relationships with veterans and fellow trainees *Real Heat* explores how the process of becoming a firefighter interacts with the dimensions of race and gender to support some and discourage others The book examines the implications of these interactions for public policy and social justice

Masculinities, Gender Equality and Crisis Management Mathias Ericson, Ulf Mellström, 2016-07-22 The overarching mission of the rescue services comprises three main areas of responsibility protection against disasters and accidents crisis management and civil defence This mission covers a long chain of obligations in trying to improve societal prevention capabilities and manage threats risks accidents and disasters concerning generic as well as individual safety It follows a reactive social chain of threat risk crisis crisis management care rehabilitation The authors in this book show that the interesting occupational characteristics of these societal duties are their connection to gender and crisis management in a wider sense Gendered practices processes identities and symbols are analytical lenses that provide a particular understanding and explanatory base that has received far too little attention in the academic literature This book identifies four major themes in relation to a gendered understanding of the rescue services and more generally emergency work Masculine heroism Intersectional understandings of sexuality class and race Gender and technology Gender equality and mainstreaming processes This book shows how the rescue services constitute a productive ground for contemporary gender studies including feminist theory masculinity and sexuality studies Its critical perspective provides new directions for emergency work and crisis management in a broader sense and in particular for scholars and practitioners in these areas

Men, Masculinities and Disaster Elaine Enarson, Bob Pease, 2016-06-17 In the examination of gender as a driving force in disasters too little attention has been paid to how women's or men's disaster experiences relate to the wider context of gender inequality or how gender just practice can help prevent disasters or address climate change at a structural level With a foreword from Kenneth Hewitt an afterword from Raewyn Connell and contributions from renowned international experts this book helps address the gap It explores disasters in diverse environmental hazard political and cultural contexts through original research and theoretical reflection building on the under utilized orientation of critical men's studies This body of thought not previously applied in disaster contexts explores how men gain maintain and use power to assert control over

women Contributing authors examine the gender terrain of disasters through men's eyes considering how diverse forms of masculinities shape men's efforts to respond to and recover from disasters and other climate challenges The book highlights both the high costs paid by many men in disasters and the consequences of dominant masculinity practices for women and marginalized men It concludes by examining how disaster risk can be reduced through men's diverse efforts to challenge hierarchies around gender sexuality disability age and culture **Black Firefighters and the FDNY** David

Goldberg, 2017-10-23 For many African Americans getting a public sector job has historically been one of the few paths to the financial stability of the middle class and in New York City few such jobs were as sought after as positions in the fire department FDNY For over a century generations of Black New Yorkers have fought to gain access to and equal opportunity within the FDNY Tracing this struggle for jobs and justice from 1898 to the present David Goldberg details the ways each generation of firefighters confronted overt and institutionalized racism An important chapter in the histories of both Black social movements and independent workplace organizing this book demonstrates how Black firefighters in New York helped to create affirmative action from the bottom up while simultaneously revealing how white resistance to these efforts shaped white working class conservatism and myths of American meritocracy Full of colorful characters and rousing stories drawn from oral histories discrimination suits and the archives of the Vulcan Society the fraternal society of Black firefighters in New York this book sheds new light on the impact of Black firefighters in the fight for civil rights **I Love a Fire Fighter**
