**Ritual, Play, and Performance** Richard Schechner, Mady Schuman, 1976-01-01      **Ritual, Play, and Performance** Richard Schechner, Mady Schuman, 1976-01-01      **The Play of the Self** Ronald Bogue, Mihai I. Spărosu, 1994-09-08 This interdisciplinary study explores the relationship between play and mimesis in the constitution and dissolution of the individual and social self. The volume is divided into three sections: the first focuses on the mimetic ludic foundations of mind, memory and desire; the second on the social and psychological self as agent of playful performance and product of cultural codes; and the third on the interplay of psyche, image and power in literary and artistic representations of the self. The subjects of the individual studies vary widely from the interrelation of power and play in Orlando Furioso to the ludic foundations of cognition to the concept of the self in Foucault and Deleuze.

**The Performance Apparatus** Branislav Jakovljević, 2025-04-15 The publication of Louis Althusser's 1969 article 'Ideology and Ideological State Apparatuses' made a deep impact on cultural studies and was instrumental in the formation of the apparatus theory in film studies. While contemporaneous with the emergence of performance art, this article and the questions of ideology and apparatus it raises barely registered in the field of performance studies, which was then in its formative phase. Jakovljević takes this absence of Althusser's apparatus theory from performance studies as an indicator of the ideological position of the field at the moment of its emergence, arguing that while theories of ideology played no major role in early performance studies, performance art itself offered a number of incisive critiques of ideology. Jakovljević looks at permutations of the apparatus by investigating the work of theorists such as Louis Althusser, Michel Foucault, Gilles Deleuze and Judith Butler, and engagements with the apparatus by a number of artists such as Amiri Baraka, Philippe Thomas, New York Art Language, Terry Fox, Every House Has a Door, Clive Robertson and Cassils. Jakovljević suggests that the centrality of behavior in early performance theory is important for the understanding of contemporary society, which is dominated by surveillance capitalism. If ideology is lodged in behaviors and if surveillance capitalism thrives on the monetization of the behavioral surplus, then performance theory can make significant contributions to our understanding of the moment in which we live and the future we are facing. The Performance Apparatus argues for the importance of continuing attention to the question of ideology in contemporary neoliberal order.

**In-Between Worlds** Sukanya Chakrabarti, 2022-11-25 This book examines the performance of Bauls folk performers from Bengal in the context of a rapidly globalizing Indian economy and against the backdrop of extreme nationalistic discourses. Recognizing their scope beyond the musical and cultural realm, Sukanya Chakrabarti engages in discussing the subversive and transformational potency of Bauls and their performances. *In Between Worlds* argues that the Bauls, through their musical, spiritual and cultural performances, offer joy and spirituality, thus making space for what Dr. Ambedkar in his famous 1942 speech had identified as reclamation of human personality. Chakrabarti destabilizes the category of folk as a fixed classification or an origin point and fractures homogeneous historical representations of the Baul.

as a folk performer and a wandering mendicant exposing the complex heterogeneity that characterizes this group Establishing folk ness as a performance category and folk festivals as sites of performing folk ness contributing to a heritage industry that thrives on imagined and recreated nostalgia Chakrabarti examines different sites that produce varied performative identities of Bauls probing the limits of such categories while simultaneously advocating for polyvocality and multifocality While this project has grounded itself firmly in performance studies it has borrowed extensively from fields of postcolonial studies and subaltern histories literature ethnography and ethnomusicology and cosmopolitan studies

*Philosophical Foundations of the African Humanities through Postcolonial Perspectives*, 2019-03-19 Philosophical Foundations of the African Humanities through Postcolonial Perspectives critiques recent claims that the humanities especially in public universities in poor countries have lost their significance defining missions methods and standards due to the pressure to justify their existence The predominant responses to these claims have been that the humanities are relevant for creating a world culture to address the world's problems This book argues that behind such arguments lies a false neutrality constructed to deny the values intrinsic to marginalized cultures and peoples and to justify their perceived inferiority These essays by scholars in postcolonial studies critique these false claims about the humanities through critical analyses of alterity difference and how the Other is perceived defined and subdued Contributors Gordon S K Adika Kofi N Awoonor E John Collins Kari Dako Mary Esther Kropp Dakubu James Gibbs Helen Lauer Bernth Lindfors J H Kwabena Nketia Abena Oduro Gayatri Chakravorty Spivak Olufemi T. **The Culture of Copying in Japan** Rupert Cox,2007-09-12 This book challenges the perception of Japan as a copying culture through a series of detailed ethnographic and historical case studies It addresses a question about why the West has had such a fascination for the adeptness with which the Japanese apparently assimilate all things foreign and at the same time such a fear of their skill at artificially remaking and automating the world around them Countering the idea of a Japan that deviously or ingenuously copies others it elucidates the history of creative exchanges with the outside world and the particular myths philosophies and concepts which are emblematic of the origins and originality of copying in Japan The volume demonstrates the diversity and creativity of copying in the Japanese context through the translation of a series of otherwise loosely related ideas and concepts into objects images texts and practices of reproduction which include shamanic theatre puppetry tea utensils Kyoto town houses architectural models genres of painting calligraphy and poetry sample food displays and the fashion and car industries

**Shakespeare's Imagined Persons** P. Murray,1996-05-10 Challenging our understanding of ideas about psychology in Shakespeare s time Shakespeare s Imagined Persons proposes we should view his characters as imagined persons A new reading of B F Skinner s radical behaviourism brings out how contrary to the impression he created Skinner ascribes an important role in human behaviour to cognitive activity Using this analysis Peter Murray demonstrates the consistency of radical behaviourism with the psychology of character formation and acting in writers from Plato to Shakespeare an approach little explored in the current debates about subjectivity in Elizabethan culture Murray also shows that radical behaviourism can explain the phenomena observed in modern studies of acting and social role playing Drawing on these analyses of earlier and modern psychology Murray goes on to reveal the dynamics of Shakespeare s characterizations of Hamlet Prince Hal Rosalind and Perdita in a fascinating new light
