River of Red Gold Naida West, Ph.D.,2013-07-01 Based on a true story 1844 1853 before and during the California Gold Rush real people and historical events brought to life names unchanged Californio Pedro Valdez Miwok Indian Mary and Elitha Donner from the tragically snowed in wagon train people of three cultures entwined in a drama of power and paradise lost This update of West's best seller includes details unavailable when originally researched in the early 1990s Expanded endnotes tell the reader where fiction fills the gaps of history and where the characters are buried For centuries Indian Mary's people have lived peacefully on the land by the Cosumnes River Pedro loves her and desires the land for his own rancho but Perry McCoon stakes his claim and brings his 14 year old Donner bride Then the stampede for gold sweeps all before it A *Poemers Poemings* Marjory Bennett,2010-05-28 I chose the title *A Poemers Poemings* because it means for me that of someone to whom is always writing about something anything and its odd and catchy at the same time and it's the main title for the series that I am writing in volumes too many to put all into one book I think of my poems all as individual artworks all their own a completeness from start to finish a journey a path a message that will inspire mesmerize intrigue and take you to that deepness that hasn't been felt or known of your own self Allow yourself to think for out there to see what each one is telling you Envision the poem and let yourself see the answers to your own thoughts of these pieces of artworks

English and Irish Settlement on the River Amazon, 1550-1646 Joyce Lorimer, 2018-12-07 From as early as the middle of the 16th century Englishmen were interested in the possibility of exploring the fabled resources of the great river of the Amazons During the first half of the 17th century English and Irish projectors made persistent efforts to maintain trading factories and plantation there From at least 1612 to 1632 they inhabited settlements along the north channel of the estuary from Cabo do Norte to the Equator making very considerable profits from tobacco dyes and hardwoods The profitability of their holdings was such that when the Portuguese made the river too risky for foreign interlopers after 1630 former English and Irish planters sought to return there under licence of first the Spanish and then the Portuguese crown The Irish may actually have been permitted to do so in the mid 1640s Almost half a century has elapsed since J A Williamson and Aubrey Gwynne first published studies of these colonies New material from English Portuguese and Spanish archives has now made it possible to re evaluate their significance The Irish ventures although begun in partnership with the English can now be seen to have developed into a quite distinct initiative They are probably the earliest example of independent Irish colonial projects in the New World By the early 1620s the Irish were known for their experience of the river and their expertise in Indian languages proving far more efficient in their approach to exploiting Amazonia than the English The tenacity with which both groups the English and the Irish pursued their goal of settlement also forces us to re assess assumptions about the seemingly inevitable priority of North America for such activity in this period The Amazon undertakings were in many ways more hopeful than contemporaneous enterprises in North America They failed because their interests were sacrificed at critical junctures to the foreign policy priorities of the English crown not because the Amazon was an unsuitable environment for northern Europeans
