The River People: Book Three in the Bompeau Family Saga Brien Brown, 2024-07-15 The early 18th century was a time of turmoil and change in America England and France fought each other to establish American colonies and formed alliances with the great competing Iroquois and Algonquin confederations European colonists staked claims to native lands Native people resisted those claims European diseases and technology changed the continent in ways few understood Native American tribes engaged in near constant conflict no one knew how to stop In this environment the River People risked war with their ancient enemies the Mingos by granting protection to six travelers Tamaqua a Lenape warrior and his blood brother John Tamaqua s son Boy John s wife Abigail their two year old son Benny and fourteen year old Tilly In exchange for this protection they expected the travelers to participate in village life John felt pressured to go on the winter long beaver hunt that had become the new core of the village economy Abigail and Tilly tried to settle into village life making wampum and coping with Native anger toward Whites Tamaqua concentrated on recovering from his wounds Then on the same night that children in the village became ill with Dutch Fever Tamaqua s Manitou appeared to him in a dream telling him Abigail had knowledge that could save many lives The problem was Abigail had no idea what she knew Meanwhile people were dying One thing is sure the long hard winter would change them all in ways no one expected

The River People Book Three in the Bompeau Family Saga is the sequel to The Fourth Son and Abigail s Tale **The River People in Flood Time** Terry Rugeley, 2014-09-10 The River People in Flood Time tells the astonishing story of how the people of nineteenth century Tabasco Mexico overcame impossible odds to expel foreign interventions Tabascans resisted control by Mexico City overcame the grip of a Cuban adventurer who seized the region for two years turned back the United States Navy and defeated the French Intervention of the early 1860s thus remaining free territory while the rest of the nation struggled for four painful years under the imposed monarchy of Maximilian With colorful anecdotes and biographical sketches this deeply researched and masterfully written history reconstructs the lives and culture of the Tabascans as well as their pre Columbian and colonial past Rugeley reveals how over the centuries one colorful character after another sets foot on the Tabascan stage only to be undone by climate disease and more than anything else tenacious Tabascan resistance Virtually the only English language study of this little known province River People in Flood Time explores the ways in which geography climate and social relationships contributed to an extraordinarily successful defense against unwelcome meddling from the outside world River People in Flood Time demonstrates the complex relationship between imperial forces in relation to remote parts of Latin America and the way that resistance to external pressure helped mold the thoughts attitudes and actions of those remote peoples Nineteenth century Mexico was more a land of localities than a unified nation and Rugeley s narrative paints an indelible portrait of one of its least known and most unique provinces **People and the River** ,1998 **Bulletin** ,1919

Women, Subalterns, and Ecologies in South and Southeast Asian Women's Fiction Chitra Sankaran,2021-11-01 In recent decades East Asia has gained prominence and has become synonymous with Asia while other Asian regions such as South and Southeast Asia have been subsumed under it The resultant overgeneralization has meant that significant aspects of the global ecological crisis as they affect these two regions have been overlooked Chitra Sankaran refocuses the global lens on these two rapidly developing regions of Asia Combining South Asian and Southeast Asian philosophical views and folk perspectives with mainstream ecocritical and ecofeminist theories she generates a localized critical idiom that qualifies and

subverts some established theoretical assumptions This pioneering study introducing a corpus of more than thirty ecofictions by women writers from twelve countries in South and Southeast Asia examines how recent global threats to ecosystems in both nature and culture impact subdominant groups including women This new corpus reveals how women and subalterns engage with various aspects of critical ecologies Using ecofeminist theory augmented by postcolonial and risk theories as the main theoretical framework Sankaran argues that these women writers present unique perspectives that review Asian women s relationships to human and nonhuman worlds New Directions in Ecofeminist Literary Criticism Andrea

Campbell,2009-03-26 As ecofeminism continues to gain attention from multiple academic discourses the field of literary criticism has been especially affected by this philosophy social movement Scholars using ecofeminist literary criticism are making new and important arguments concerning literature across the spectrum and issues of environment race class gender sexuality and other forms of oppression The essays in New Directions in Ecofeminist Literary Criticism highlight the intersections of these oppressions through the works of different authors including Barbara Kingsolver Ruth Ozeki Linda Hogan and Flora Nwapa and demonstrate the expansion of ecofeminist literary criticism to a more global scale as well as important connections with the field of environmental justice This collection offers fresh insight and expands the important discussion surrounding the field of ecofeminism and literature **Klamath National Forest (N.F.)** ,1998 **The Great**
