Pesantubbee,Michael J. Zogry,2021-03-01 Native Foodways is the first scholarly collection of essays devoted exclusively to the interplay of Indigenous religious traditions and foodways in North America Drawing on diverse methodologies the essays discuss significant confluences in selected examples of these religious traditions and foodways providing rich individual case studies

informed by relevant historical ethnographic and comparative data Many of the essays demonstrate how narrative and active elements of selected Indigenous North American religious traditions have provided templates for interactive relationships with particular animals and plants rooted in detailed information about their local environments In return these animals and plants have provided these Native American communities with sustenance Other essays provide analyses of additional contemporary and historical North American Indigenous foodways while also addressing issues of tradition and cultural change Scholars and other readers interested in ecology climate change world hunger colonization religious studies and cultural studies will find this book to be a valuable resource

A River's Gifts Patricia Newman, 2023-08-01 Audisee eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience A mighty river A long history For thousands of years the Elwha river flowed north to the sea The river churned with salmon which helped feed bears otters and eagles The Lower Elwha Klallam Tribe known as the Strong People located in the Pacific Northwest were grateful for the river's abundance All that changed in the 1790s when strangers came who did not understand the river's gifts The strangers built dams and the environmental consequences were disastrous Sibert honoree Patricia Newman and award winning illustrator Natasha Donovan join forces to tell the story of the Elwha chronicling how the Strong People successfully fought to restore the river and their way of life

Any Child Can Read Better Harvey S. Wiener, 1996-05-16 Reading however fundamental the task may seem to everyday life is a complex process that takes years to master Yet learning to read in the early stages is not an overwhelming problem for most children especially when their classroom learning is coupled with a nurturing home environment in which reading is cherished and pencil and paper are always available and fun to use In fact studies have shown that children score higher in reading if their parents support and encourage them at home Unfortunately though many parents want to involve themselves actively in their children's education very few know just what to do Now Dr Harvey S Wiener author of the classic *Any Child Can Write* provides an indispensable guide for parents who want to help their children enter the magic realm of words In *Any Child Can Read Better* Second Edition Dr Wiener offers practical advice on how to help children make their way through the maze of assignments and exercises related to classroom reading In this essential book parents learn how to be reading helpers without replacing or superseding the teacher by supporting a child's reading habits and sharing the pleasures of fiction poetry and prose Home learning parents also will find a wealth of information here Through comfortable conversation and enjoyable exercises that tap children's native abilities parents can help their child practice the critical thinking and reading skills that guarantee success in the classroom and beyond For example Dr Wiener explains how exercises such as prereading warm ups like creating word maps a visual scheme that represents words and ideas as shapes and connects them will allow youngsters to create a visual format and context before they begin reading He shows how pictures from a birthday party can be used to create patterns of meaning by arranging them chronologically to allow the party's story to emerge or how they might by

arranged by order of importance a picture of Beth standing at the door waiting for her friends to arrive could be displayed first Beth blowing out the birthday cake placed toward the middle of the arrangement and the pictures of Beth opening her gifts especially the skates she s been begging for all year would surely go toward the end of the sequence Dr Wiener shows how these activities and many others such as writing games categorizing toys or clothes or favorite foods and reading journals will help children draw meaning out of written material This second edition includes a new chapter describing the benefits of encouraging children to keep a journal of their personal reactions to books the value of writing in the books they own underlining writing in the margins and making a personal index and a variety of reading activities to help children interact with writers and their books Dr Wiener has also expanded and updated his fascinating discussion of recommended books for children of all ages complete with plot summaries Written in simple accessible prose Any Child Can Read Better offers sensible advice for busy parents concerned with their children s education *Damming the Peace* Wendy

Holm,2018-04-01 Since the 1970s the Site C Dam in northeastern British Columbia s Peace River Valley has been touted by B C Hydro and successive governments as necessary to meet the province s increasing energy needs With its enormous 10 billion price tag the dam would be the largest public works project in BC history It would be the third dam on the Peace River and destroy traditional unceded territory belonging to Treaty 8 First Nations Following the last provincial election the newly appointed NDP government called for a review of the project but work on the dam continues This comes after protests by aboriginal groups and landowners several lawsuits against the government and federal government intervention to let the dam go ahead More recently there has been a call from a United Nations panel to review how the dam will affect Indigenous land This book presents the independent voices of citizen experts describing every important impact of the dam including Sustainable energy expert Guy Dauncey on future energy demand and whether there is likely to be a need for the dam s electricity An interview with aboriginal activist Helen Knott on the dam s assault on traditional lands and culture in particular Indigenous women Agrologist Wendy Holm on the farm land impact prime horticulture land important to food security and nutrition Family physician Warren Bell on the effect that loss of traditional way of life and connection to the land has had on the health of aboriginal people Wildlife biologist Brian Churchill with forty years experience of studying its land and wildlife Former environmental minister Joan Sawicki on government cover ups and smoking guns Energy industry watchdog Andrew Nikiforuk on the links between dams fracking and earthquakes Award winning broadcaster Rafe Mair on how party politics corrupts political leadership and the role of activism and civil disobedience in shaping government decision making David Schindler one of the world s foremost water ecologists explains the role dams like Site C will play in Canada s climate change strategy Joyce Nelson connects the dots between the Site C dam and continental water sharing plans **Charles Fritz**

Charles Fritz,2009 Charles Fritz 100 Paintings Illustrating the Journals of Lewis and Clark unites exquisite Western art with one of our nation s greatest epics The result of a decade of comprehensive research and on location painting this expanded

collection of 100 paintings depicts the triumphs and travails of the Corps of Discovery's two and a half year trek through unknown territory to the Pacific Ocean and back between 1804 and 1806. Although several members of the Corps of Discovery kept journals, an artist did not accompany the expedition. Unlike almost every expedition since, there had been no one to visually document the unique people, landscapes, animals, and plants never before seen by Americans living in the East. With artistry and a passion for historical accuracy, Charles Fritz, one of the nation's most respected Western artists, brings the Journals of Lewis and Clark to life, telling this remarkable American story visually and for the first time, allowing us to experience what the Corps saw on their historic journey. **Great Books About Things Kids Love** Kathleen

Odean, 2008-12-18 **BOOKS THAT TURN CHILDREN INTO LIFE LONG READERS** Most children want to read a book because it's about something they love or are curious about: dinosaurs, magic tricks, ballerinas, sports, secret codes, and a host of other topics. Now with this unique book, Kathleen Odean, current chair of the Newberry Award committee and author of *Great Books for Girls* and *Great Books for Boys*, makes it easy for parents and teachers to satisfy a child's individual cravings for good reading on any subject. Inside you'll discover more than 750 books divided into 55 categories from Airplanes to Zoos. Professional appraisals that are balanced, intelligent, and fun to read. Stimulating book-related activities and helpful tips for parents. Whether the format is picture book, poetry, fiction, or nonfiction, here are wonderful selections like *Why Does the Cat Do That?* and *Exploring the Titanic*, tried and true characters from the beloved aardvarks Arthur and D.W. to the hilarious Junie B. Jones and the courageous Harry Potter, new heroes and heroines to cheer for such as Katherine Paterson's *Princess Miranda* from *The Wide Awake Princess* and the exciting Jack Black from *Jack Black and the Ship of Thieves* by Carol Hughes. *Great Books About Things Kids Love* creates a book-rich environment in which the habit of reading can take hold and flourish for a lifetime. From the Trade Paperback edition. **The Missionary Review of the World**, 1924 **Geographic Literacy**

Through Children's Literature Linda K. Rogers, 1997-09-15 Combining practical, student-centered activities with an annotated bibliography of more than 160 children's books, this guide models ways for classroom teachers to teach geography through children's literature. Chapters based on the five themes of the Geographic Standards present a variety of activities that teach students important geographic concepts. The extensive bibliography provides summaries of books, suggested teaching activities, and cross-references to other books. A list of teacher resources is also included. Attractive line drawings accompany the conversational text. Anyone looking for an effective way to teach geography at the elementary level will want this book, and middle and high school educators will find useful extensions for older students. The work offers a great way to integrate geography into the curriculum. *To Look Closely* Laurie Rubin, 2023-10-10 Whether it's a trickling stream, a grassy slope, or an abandoned rail line, the natural world offers teachers a wonderful resource around which to center creative, inquiry-based learning throughout the year. Nobody knows this better than veteran teacher Laurie Rubin. In *To Look Closely: Science and Literacy in the Natural World*, she demonstrates how nature study can help students become careful

intentional observers of all they see growing into stronger readers writers mathematicians and scientists in the process Laurie invites you to join her class of twenty one second graders as they visit a small stream in the woods behind a suburban elementary school and she shares her reflections on class discussions activities and learning experiences From setting a tone of inquiry based thinking in the classroom to suggesting specific units of study for reading writing and science Laurie guides teachers step by step through the basics of how to integrate the skills acquired through nature study into every subject You will also discover all the ways this purposeful work nurtures green citizens who grow up determined to value and protect the natural environment Filled with student journal entries narratives and poems inspired by experiences in the natural world To Look Closely will inspire and encourage you to become a careful observer of your own sit spots outdoors and embrace nature study for a year or for whatever part of a year is possible for you This book will change the way you view the world **That Which Roots Us** Marion Dresner,2023-12-05 A work of natural and environmental history That Which Roots Us is a work of natural and environmental history that explores the origins of and resolutions to some of the United States environmental problems Marion Dresner discusses the roots of Euro American environmental exploitative action starting with the environmental consequences of having treated Pacific Northwest forests as commodities She shares her experiences visiting sites where animal centered ice age culture changed to human centered culture thousands of years ago with the advent of farming The book explores the origins of the romantic philosophical movement which arose out of the debilitating conditions of the industrial era Those romantic attitudes toward nature inspired the twentieth century preservation movement and America s progressively modern conservation attitudes The book is centered around environmental issues in the Pacific Northwest contrasting utilitarian views of nature with Native American practices of respect and reciprocity The elements that make That Which Roots Us a truly unique and important contribution to environmental literature are the author s personal recollections and interactions with the landscape Ultimately Dresner offers hope for a new stewardship of the land and a focus on science literacy and direct experience in the natural world as the most grounded way of knowing the planet
