River Road To China The Mekong River Expedition 18661873:

River Road to China Milton Osborne, 2007-12-01 A compelling finely researched account of an adventure that was hailed as one of the grandest explorations of the nineteenth century The Washington Post A New York Times Notable Book In 1866 six Frenchmen set out on a dangerous mission to seek a trade route up the Mekong During the two years that followed they would journey through more than four thousand miles of unmapped territory from the tropical heat of the swamps of Vietnam and Cambodia to the bitter cold of the mountain ranges of southwestern China Their historic expedition is the dramatic subject of *River Road to China* a story of courage endurance and determination in the face of unpredictable dangers and near insurmountable odds This edition has been updated to include a new postscript by the author and more than thirty full color illustrations by the expedition's artist The highest of high adventure Osborne's documentation is flawless The New Yorker As exciting as it is historically illuminating A tale of heroism that has seldom been duplicated spurred by the continuing fatal attraction of the Great River The New Republic

The Mekong: A Socio-legal Approach to River Basin Development Ben Boer, Philip Hirsch, Fleur Johns, Ben Saul, Natalia Scurrah, 2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing

The Range of the River Iftekhhar Iqbal, 2025-12-02 Spanning nearly 4 million square kilometers the Tibetan river system including the Brahmaputra Irrawaddy Salween Mekong Red and Yangzi forms the largest contiguous network of rivers on the planet stretching across eastern South Asia mainland Southeast Asia and southern China The Range of the River uncovers the entwined histories of these vast waterways and the empires human actors and other than human forces that have shaped Asia since the 1850s Both ethnodiverse and biodiverse these rivers

were more than contested imperial spaces they were also channels of communal and material exchange linking near and distant contact zones They fostered connections across Asia driving commerce mobility and cultural encounters that transformed them into shared living commons bridging societies political powers and economic interests Tracing six major rivers across eight countries Iftekhar Iqbal argues that these river systems formed the core of a discursive space where empires regional political forces ethnic groups boaters peddlers explorers merchants and mules encountered each other in layered meanings and movements This groundbreaking book reimagines the river not as merely a tool of empire but as a dynamic force in itself shaping a truly transregional Asia By weaving together diverse riverine life worlds The Range of the River invites us to rethink Asia s spatial history Negotiated Power in Late Imperial China Jennifer Rudolph,2010-02-28

Negotiated Power in Late Imperial China The Zongli Yamen and the Politics of Reform explores the nature and functioning of reform during the nineteenth century of China s Qing dynasty 1644 1911 By analyzing the bureaucratic modes of management that developed around the creation and evolution of the Zongli Yamen or Foreign Office 1861 1901 the book demonstrates the vitality of not only the Chinese State but also the institutional traditions of its Manchu rulers Drawing on precedent and the flexibility of the administrative system in their efforts to manage the conduct of foreign affairs high Qing ministers transformed opportunities for institutional dynamism into the reality of a functioning central Zongli Yamen with a foreign affairs field administration supporting it in the provinces In the process they altered the governmental hierarchy and changed the definition of institutional power in the multi faceted area of foreign affairs and more generally for the Qing bureaucracy As the most significant example of institutional development in China s critical period of the nineteenth century the Zongli Yamen s experience serves as valuable background for understanding reform efforts in late imperial China and beyond Al-Hind, Volume 3 Indo-Islamic Society, 14th-15th Centuries André Wink,2003-11-15 This third volume of Andre Wink s acclaimed and pioneering Al Hind The Making of the Indo Islamic World takes the reader from the late Mongol invasions to the end of the medieval period and the beginnings of early modern times in the late fifteenth and early sixteenth century It breaks new ground by focusing attention on the role of geography and more specifically on the interplay of nomadic settled and maritime societies In doing so it presents a picture of the world of India and the Indian Ocean on the eve of the Portuguese discovery of the searoute a world without stable parameters of pervasive geophysical change inchoate and instable urbanism highly volatile and itinerant elites of nomadic origin far flung merchant diasporas and a famine and disease prone peasantry whose life was a gamble on the monsoon Asian Borderlands Charles Patterson Giersch,2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry **Anderson's Travel Companion** Compiled by Sarah Anderson,2016-12-05 A selection of the best in travel writing with both fiction and non
