Rivers Of Memory:

Rivers of Memory Harry Middleton, 1993 Rivers, Memory, And Nation-building Dorothy Zeisler-Vralsted, 2014-11-01
Rivers figure prominently in a nation's historical memory and the Volga and Mississippi have special importance in Russian and American cultures. Beginning in the pre-modern world both rivers served as critical trade routes connecting cultures in an extensive exchange network while also sustaining populations through their surrounding wetlands and bottomlands. In modern times Mother Volga and the Father of Waters became integral parts of national identity contributing to a sense of Russian and American exceptionalism. Furthermore both rivers were drafted into service as the means to modernize the nation state through hydropower and navigation. Despite being forced into submission for modern day hydrological regimes the Volga and Mississippi Rivers persist in the collective memory and continue to offer solace recreation and sustenance. Through their histories we derive a more nuanced view of human interaction with the environment which adds another lens to our understanding of the past.

Where the River Flows Sean W. Fleming, 2019-08-06 Rivers are essential to every aspect of civilization yet how many understand how they work. Fleming takes readers on a journey along our planet's waterways providing a scientist's reflections on the profound interrelationships that rivers have with landscapes ecosystems and societies.

Rivers, 1995 **Rivers in Russian Literature** Margaret Ziolkowski, 2020-11-20 Rivers in Russian Literature focuses on the Russian literary and folkloric treatment of five rivers the Dnieper Volga Neva Don and Angara. Each chapter traces within a geographical and historical context the evolution of the literary representation of one river. Imagination may endow a river with aesthetic or spiritual qualities ethnic national or racial associations or commercial or agricultural symbolism of many kinds. Russian literary responses to these five rivers have much to tell us about the society that produced them as well as the rivers they treat. Distributed for UNIVERSITY OF DELAWARE PRESS

It shows how survivors script their life stories to reinscribe tragic tales of violence and abjection into triumphalist sagas of fortitude resilience industry enterprise and success. At the same time it reveals the silences stutters and stammers that interrupt survivors narrations to bring attention to the untold stories repressed in their consensual narratives. By drawing upon current research in history memory narrative violence trauma affect home nation borders refugees and citizenship the book analyzes the traumatizing effects of both the tangible and intangible violence of Partition by tracing the survivors journey from refugees to citizens as they struggle to make new homes and lives in an unhomely land. Moreover arguing that the event of Partition radically transformed the notions of home belonging self and community it shows that individuals affected by Partition produce a new ethics and aesthetic of displacement and embody new ways of being in the world. An important contribution to the field of Partition studies this book will be of interest to researchers on South Asian
