Joel Best, Best's anthology examines for the first time how diverse social issues road rage the metric system gun control and abortion are among those included migrate across national boundaries modifying themselves from place to place as a result of different claims claimsmakers and policy responses This unique collection assembled from new research by an international group of social problems scholars will fill a gap in undergraduate and graduate level studies in the constructionist analyses of social problems as well as in political science public policy and criminology Claims concerning one social problem often influence those about another claimsmakers borrow rhetoric and tactics from one another In some cases experienced claimsmakers join efforts to call attention to other social problems compelling images e.g. the threatened child or random violence link claims about different problems and reactions to one set of claims These case studies describe very different processes ranging from deliberate attempts to disseminate social problem claims to developments that were more inadvertent from successes in which social problem constructions spread to new countries to failures in which claims were sown but failed to take root They are intended to suggest that the diffusion of social problems is neither simple nor automatic Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has served as an editorial advisor for Aldine that has produced fifty titles

exist Neologisms give us insight into the way things are even as they act as linguistic harbingers of what's to come Each chapter of Word Spy is a cultural snapshot a slice of the zeitgeist that focuses on a specific idea or sociological phenomenon with an emphasis on the words and phrases that it has generated These snapshots cover various aspects of modern life including relationships business technology war aging multiculturalism and even fast food all the while introducing us to hybrid words If your kids can't seem to get away from their computers they may be addicted to fritterware time wasting game software If you're a new mother with a passion for petitioning you may be a lactivist breast feeding activist And if you keep finding yourself staying way later at the office than you ever imagined you may be suffering from presenteeism Word Spy is an exciting and informative travelogue through the evolving landscape of our language and consequently the cultures and subcultures that continually mold and shape not just the language but all of us who speak it *Happy City: Transforming Our Lives Through Urban Design* Charles Montgomery, 2013-11-12 A journalist travels the world and investigates current socioeconomic theories of happiness to discover why most modern cities are designed to make us miserable what we can do to change this and why we have more to learn from poor cities than from prosperous ones
