ceremonies to artefacts and language It is clear he talked extensively with people though mostly with a translator and compared accounts He also took many photographs some 200 of which were included in the volume Given the period all his human subjects had to be posed but the range of associated detail probably unconsciously included is substantial What is particularly important about this work is the period in which it was written While Parkinson may never have been the first contact of any local people he was clearly among the first and observed many societies before they were extensively incorporated into the Western economy or missionised Thirty Years in the South Seas is unparalleled in the literature of the Bismarck Archipelago It is an incomparable picture of a time and place now long past **Pearson's Magazine** ,1908
