In a groundbreaking departure The Letter of the Law suggests that law and literature should be understood as parallel forms of discourse at times complementary at times antagonistic but always mutually illuminating Emily Steiner and Candace Barrington maintain that medievalists are uniquely placed to make valuable new contributions to the subject of law and literature in part because of the inherently interdisciplinary nature of the study of medieval law inseparable as it was from political theory and theology Treating texts as varied as Chaucer's Knight's Tale the fifteenth century Robin Hood ballads and William Thorpe's account of his own heresy trial the nine never before published essays in this volume reveal the intersections of legal and documentary culture with vernacular literary production They establish that law and English literature were intimately bound up in processes of institutional linguistic and social change and they explain how the specific conditions of medieval law and literature offer useful models in studying later periods An appendix contains a translation by Andrew Galloway of History or Narration Concerning the Manner and Form of the Miraculous Parliament at Westminster in the Year 1386 *Anglia*, 1971 *Author, Reader, Book* Stephen Partridge, Erik Kwakkel, 2012-06-29 The current focus on the theme of authorship in Medieval and Early Modern studies reopens questions of poetic agency and intent Bringing into conversation several kinds of scholarship on medieval authorship the essays in *Author Reader Book* examine interrelated questions raised by the relationship between an author and a reader the relationships between authors and their antecedents and the ways in which authorship interacts with the physical presentation of texts in books The broad chronological range within this volume reveals the persistence of literary concerns that remain consistent through different periods languages and cultural contexts Theoretical reflections case studies from a wide variety of languages examinations of devotional literature from figures such as Bishop Reginald Pecock and analyses of works that are more secular in focus including some by Chaucer and Christine de Pizan come together in this volume to transcend linguistic and disciplinary boundaries *The Dictionary of National Biography : the Concise Dictionary: From the beginnings to 1900, being an epitome of the main work and its supplement*, 1969 **An essay towards a topographical history of the county of Norfolk.
